Notice To Nicholas County Property Owners!

The State Dept. of Revenue has refused to accept the Valuation placed on real estate in this county due to fact that they are not full value based on recent sales throughout the county.

In view of these facts they have ordered me to re-value the entire county. This work will take several days, and when completed another inspection period will be held. At that time each tax payer will have the right to inspect his or her property and to file objections if they see fit.

It must be remembered that under the compensating rates that are in effect at this time, when values go up, the rates come down. This re-valuation will not have too much effect on taxes as a whole.

I regret that this action has to be taken, however people will not value their property at full value. Sales within the county have made this record.

Sincerely Yours,

A. V. "Doc" Allison
Property Valuation Administrator

Non-Profit Diabetic Camp

The fifth annual non-profit James Robert Henderson Camp for Diabetic Children (formerly known as the Kentucky Camp for Diabetic Children) will be held from August 9 through August 22. It will be located at a new camp site this year, Camp KYDC, which is owned by the Kentucky Eastern Seal Society and is located two miles from Carrollton, Ky. across the highway from General Butler State Park.

The Kentucky Diabetes Association, which is composed of a group of Kentucky physicians especially interested in the treatment of diabetes, sponsors this camp because diabetic youngsters are almost never accepted at other camps. In addition to enjoying the experience of camp life they will also learn more about the care of their disorder in a group of other diabetic youngsters whose problems are largely the same.

The camp facilities include a spacious lodge housing the dining hall, a large program room and kitchen; administration building, service building, health center; nine camper villages with three cabins each; two craft buildings; heated swimming pool, shower house, blacktopped trails, a boat dock and a fishing dock on a 20 acre lake.

There will be a highly trained staff of counselors including professional recreation personnel, college students, teachers and other persons in the recreation fields. There will be no counselors-in-training.

The campers will be under medical supervision with two physicians and two registered nurses at the camp. A trained dietitian will supervise the dietary needs of the campers. The camp fee will be the same as last year. \$110 though this year's camp will offer many more advantages. A limited number of campships will be available in special circumstances on a need-and-first-come basis. Some of the camping activities will include swimming, ball games, row-boating, fishing, arts and crafts, over-night camping, archery, nature hikes, cook-outs, pontoon boating, plays, canoeing, camping, play, square dancing, special events, parties and many more. Instructions will be given to the campers in the essentials of diabetic care, including how to give their own insulin injections.

The camp has been renamed in honor of its founder Dr. James Robert Henderson of Louisville.

Further information and camp applications may be received from the James Robert Henderson Camp for Diabetic Children, 204 Finca Building, Louisville, Ky. 40232. Or telephone 983-5997 or 983-4833, Area Code 502.
