ONE OF THE MARKS of a good newspaper is a strong editorial page. Some readers may think the editor is way off base at times, and they may be right. But every newspaper writer's aim has read... The greatest unexplored ter-

NEW EMBLEM WILL BE ON SLOW-MOVING VEHICLES. All slow-moving vehicles sold in Kentucky after Jan. 1, 1971, will be required to display a "slow-moving vehicle emblem" under a law passed by the last Kentucky General Assembly. The purpose of this new emblem, according to Dr. B.F. Park...

### MERCURY V.P.

By Warren R. Fisher. We make them and do our daily counterparts. At the very least, to the defense of a daily circulated in this area that seemingly is noted for its lack of apparent proofreading, but we did point out that it was possible to make some 3,000 plus errors in a column of type 2 1/2 inches deep. And that we sorta suspected that the lack of mapwiper or womanpower, as the case may be, was the prime cause of so many errors.

### Liquor and Longevity

The horse and mule live thirty years. And nothing good of wines and beers: The goat and sheep at twenty five. The cow drinks tea or Scotch or Rye; The cow never talks by the ton...

### NATIONAL AWARD-WINNING SYNCHRONIZED HOMETOWN COLUMN

At that price which American can buy. "Young and middle-aged men compelled to get their hair short for the job seeking in our country contemporary, long-haired beards." A "Cotton" trend for longer hair has actually made men's wigs the success they are today. No longer is the whole business of the hair industry. Wigs fit completely over a man's head and, since the hair is frequently brushed forward, it is impossible to tell that the man has it at all. A quick ring in a mild shampoo and you can be humping up to dry.

## WHAT'S A FOX?

A Fox is a little wild dog. Foxes belong to the same animal family as pointers, setters, beagles, Great Danes and collies. In sporting circles, foxes are sometimes the subjects of bets. In the wild, foxes are credited with powers bordering on the supernatural. But despite some claims, foxes are only little wild dogs with little wild dog minds and abilities.

Kentucky foxes come in two kinds: the red fox and the gray fox. Gray foxes are mostly gray, but red foxes come in several colors. Silver foxes, cross foxes, and platinum foxes are all mutations of red foxes. Most of the mutations are found only on far farms.

For a number of years previous to the middle 1920's red foxes were so scarce in most of Kentucky that they seemed almost absent. At that time, the reappearance of the red fox brought forth, among other things, considerable interest in foxes. Biologists have speculated on this question for years.
