Survivors besides her husband are three daughters, Mrs. John W. Agee, Tampa, Fla.; Mrs. Sag Kash, Sarasota, Fla.; and Mrs. R.C. Helwig, Detroit, Mich.; and three grandchildren.

Services will be held Thursday, July 22, 1971 at 2 p.m. at the Hayes Funeral Home in Norton, Va. Burial will be in the Highland Cemetery in Norton.

## Farm Safety Week To Be July 25-31

During National Farm Safety Week, make Kentucky's farms safer places to live and work, suggest Extension management specialists with the University of Kentucky College of Agriculture, Most accidents can be prevented by exercising proper caution and using common sense.

The President of the United States has declared the week of July 25-31, 1971 as National Farm Safety Week. In his proclamation Mr. Nixon said: "All who live and work on America's farms and ranches owe it to themselves, their families, and the nation that depends on them, to put safety first."

The theme of the week is "Protect Yourself—Work Safely." Kentucky's 120,000 farmers suffer from their share of accidents involving physical injury or death. In 1969, 57 persons lost their lives in accidents on Kentucky farms. One-half these accidents involved a farm tractor, according to a new survey report issued. Thus far in 1971, farm accidents have taken the lives of 32 persons in Kentucky. In addition, at least 68 persons have been involved in non-fatal accidents. Among the other types of accidents reported were improper use of power tools, falls and fire.

Let's see what we can do to make Kentucky accident statistics less alarming next year, the UK specialists recommend. Tractors should be equipped, whenever possible, with 11 safety protective equipment, proper hitching to loads will do much to cut down on tractor overturns. Proper shelding should be in place while the machine is in operation. Also, remember that a tractor is not a hot rod—it was not designed to take curves and jumps at high speeds.

## F.H.A. Meet

Continued from Page 7  
meeting represented a national P.H.A. membership of over half-a-million. The reports that it was an exciting week packed with worthwhile discussion groups, outstanding speakers, fun time, an evening at Kansas City's famous Starlight Theatre, and a visit to the Truman Library at Independence, Mo.

"The meeting theme was 'Accelerated Action: Discovery, Involvement, Growth.'" Sandra reported, "and we were successful in accomplishing the objective 'To encourage individuals to Discover the Satisfaction in a Guided Through Personal Involvement.'" We heard from several members in the sales field, had panel discussions and audience participation sessions during the four days dealing with such topics as "The Four-Step Approach to Discovery," "Meaningful Involvement," and "Fulfilling Personal Potential." In small workshops which we called "Digging Seasons" we stressed individual growth through personal involvement.

Sandra pointed out that one of the best things about the meeting was the opportunity to make a lot of new friends from all across the country. "And, of course," she added, "the election and installation of our 12 new national officers is a thrilling event. Being selected as a delegate to attend the national meeting was a wonderful experience and a great honor for me, and I am grateful for having had their friendship."

## More 'Singles' In Nicholas Survey Says

Living alone has become a modern-day development in Nicholas County. Many unattached men and women in the local area, who would have had no alternative in former years but to reside with relatives or friends, have now found it possible to support themselves and have their own living quarters.

Included in this unattached group are young people and older people who are unmarried as well as divorced and widowed persons who have remained single. As a result of the living alone trend among this group, the number of dwelling units in Nicholas County that are occupied by only one person has risen considerably in the last ten years.

According to the Department of Commerce, the proportion of housing units in the local area that are occupied by one person is now 16.9 percent. This compares with the 1960 average of 16.0 percent.

Elsewhere in the United States the one-person households amount to 17.6 percent. In the East South Central States they represent 14.8 percent and, in the State of Kentucky, 15.2 percent.

The report notes that it was common, years ago, for parents, when widowed, to move in with their married children so that they would not spend their twilight years alone.

Today, however, the three-generation household is a rarity. More and more of these grandparents are living alone and liking it. Many of them are holding down jobs full time or part time. They are aided by social security benefits and other state funds.

They are aided by social security benefits and other state funds.

## Dove Hunting Regulations Announced

Kentucky dove hunters will begin this year have 70 days in which to hunt but each of those days will be one-half hour shorter, hunting-wise, and the daily bag limit has been reduced from 18 to 12, according to regulations set by the Kentucky Fish and Wildlife Commission.

In adopting the regulations, from the framework submitted by the U.S. Department of Interior, the Commission opted to follow a pattern set by a number of other states and "stop the shooting" at one-half hour before sunset (prevaling time) rather than at sunset as in previous years. Shooting hours will begin at 12 noon prevailing time.

The season will begin Sept. 1 and continue through Oct. 31, re-open on Dec. 1 and ends on Dec. 9. Daily bag limit will revert from the experimental 18 of the past few seasons to 12. The possession limit will be 24.

Other migratory bird seasons set by the Commission are: ralls, Nov. 18-Jan. 15; woodcock, Nov. 18-Jan. 21; quail, Nov. 18-Jan. 21; and gallinules, Nov. 18-Jan. 15. Bag and possession limits are: ralls, 25 and 25; woodcock, 5 and 10; wilson snipe, 8 and 16; and gallinules, 15 and 30. Complete regulations governing hunting of the above species may be obtained by writing Department of Fish and Wildlife Resources, Frankfort, Ky.

## My Neighbors

"Today a dumpsite is a lovely park—quite a place where people will leave their trash."

A view of Jerry Bowles' car after it was righted on July 14. Bowles was killed when it was thrown from his car. The seat belts appear to have snapped.

## Car Righted Open Forum On Alcohol-Drug Abuse To Be Held In Paris Mon., July 26

The campaign against alcoholism and drug abuse continues with the announcement that Paris will be the site of an Open Forum on Alcohol and Drug Abuse Monday evening July 26 for the citizens of Bourbon, Harrison, Nicholas and Scott Counties.

This Open Forum is the third of at least six to be held by the 20-member Ad Hoc Committee on Alcohol and Drug Abuse for the central Kentucky region. The Committee is composed of Bluegrass Regional Mental Health-Mental Retardation Board members and at-large citizens knowledgeable about or concerned with alcoholism and drug abuse.

The Forums are expected to provide information on existing programs and on needs which will help the Committee meet its commitment to develop comprehensive programs for these two critical problems. Forums have already been held in Richmond and Danville. Committee Chairman Dr. John Cole of Lexington announced that committee member Dr. W.L. Davis of North Middletown will coordinate the July 26 Paris Forum.

Anyone interested in or involved with alcoholism or drug abuse is encouraged to attend. The Committee hopes to delineate current problems and uncover needs in the fields of alcoholism and drug abuse. This is an opportunity for everyone to speak his mind whether it is a presentation or a question on alcoholism or drug abuse. Particularly important are proposals for services and programs to deal with these two critical problems. The Paris Forum will be at the Bourbon County Health Department at 7:30 p.m.

Assistance with the Open Forums is being rendered to the Bluegrass Regional Mental Health-Mental Retardation Board by the Kentucky Department of Mental Health.
