Fresh Water Hatcheries For Cane Run Reservoir

Frankfort - - Kentucky is to have one of the most modern freshwater fish hatcheries in the nation.

Under the terms of a contract awarded yesterday by the Department of Finance, and Fish and Wildlife Resources, work will start within ten days on the two million dollar plus facility to be located below Cave Run Dam near Owingsville and Morehead. The first phase contract, amounting to slightly more than $1,300,000, has been awarded to the K. A. Barker Construction Company of Louisville. Under terms of the contract the first phase work must be completed by March 12, 1972.

Minor Clark, commissioner of the Department of Fish and Wildlife Resources, in announcing the Barker Contract award, said another contract, for second phase work, probably would be let during this summer and the hatchery should be in operation by spring of 1973.

The Barker Contract calls for the laying of a network of supply and drainage pipes; construction of roads after the area has been cleared; building of 84 ponds of one acre; 24 of one-tenth acre which will be used as nursery stations, and three large ponds of eight acres each in which brood fish will be held. The layout will feature earthern dams with the necessary concrete structures. The $1.3 million figure does not include engineering and inspection fees which would bring the total cost for the initial phase to near $1.5 million.

The second phase will include construction of the hatchery building and the maintenance building and residences for hatchery employes.

Production of musky, walleye, rockfish and largemouth bass is expected to start early in 1973. In addition, forage fish also will be produced.

Bernard Carter, assistant commissioner and former director of the Division of Fisheries, stated that musky, walleye and bass eggs will be secured from broodstock held by the Department but that rockfish fry will be initially obtained from South Carolina.

The "Minor Clark Hatchery" is to be built immediately below Cave Run Dam which will impound the Licking river at Farmers, a few miles from Owingsville and Morehead. The Cave Run Dam is expected to be completed by late 1972. Water from this lake will be gravity fed into the hatchery proper in a cooperative move with the Corps of Engineers. The hatchery will be built on a 200 acre plot of the 300 acres which the Department has purchased, with 100 acres to be held for future expansion of the hatchery.

The Havasupai Indian reservation, one of the smallest in the United States, covers five square miles, and fewer than 300 people live there, the National Geographic Society says. It lies beneath the rim of Grand Canyon.

About the cost of electric heat?

Sometimes it's fun to be fooled. But not always. Suppose you build a new home *without* electric heat. Or you replace an old furnace with one just like it instead of converting to *electric* heat. Because you were fooled by tall tales about the too-high cost of electric heat. And then — too late — you get the facts. You discover that electric heat is reasonable in cost. That it would also have kept your new home modern for years to come — or given your old home a new lease on life. It's not always fun to be fooled!

LISTEN TO FACTS NOT FICTION.

If you're thinking of building or modernizing, call our nearest office. We'll give you an accurate estimate of *all* electric heating costs. Then *you* decide.

FLAMELESS ELECTRIC HEAT IS PURE COMFORT

FARM AUCTION
4 NICHOLAS AND FLEMING COUNTY FARMS
March 20, At 1:30 P.M.

Four good farms located in and near Pleasant Valley on the Nicholas and Fleming County line, on or near Ky. Highway No. 32 between Carlisle and Flemingsburg.

(1)

The Maude & Hanson Flora Home Farm in Pleasant Valley in Nicholas County. Consisting of about 124.25 acres, improved with good 1 story frame house, 5 rooms and enclosed back porch, bath, improved kitchen. 1 very large and 1 small barn in fair condition, Flora's 3 room store building, crib, garage and plenty of outbuildings. 1970 tobacco base 2.49 acres, Feed grain base 8.0 acres, 120 acres cropland. A good farm in an exceptionally fine location.

(2)

The Clark Farm on Parks Hill in Nicholas County consisting of about 124.10 acres, improved with decent 4 room house, 2 real good barns and necessary outbuildings. 1970 tobacco base 1.81 acres, Feed Grain Base 6.0 acres, 87 acres cropland. A nice productive farm.

(3)

The Lou Tyrer Farm in Fleming County east of Fleming Creek at Pleasant Valley. Consisting of about 94.75 acres. Mostly Fleming Creek high bottoms that are very fertile. Improved with good tobacco barn. House and outbuildings poor. 1970 tobacco base 1.66 acres, feed grain base 6.0 acres, 80 acres cropland.

(4)

The Conway Farm located a short distance south of Pleasant Valley and West of Fleming Creek lying partly in Fleming and partly in Nicholas County. Containing about 99.82 acres. 1970 tobacco base 0.62 of an acre, Feed Grain base 2.0 acres, 30 acres cropland, balance woodland. No buildings.

Tract No. 1 is bisected by Route 32.

Tract No. 2 located on an improved Highway 1 mile north of the Licking River Bridge. Road enters Route 32 just at the north west end of the bridge.

Tracts No. 3 & 4 are short distances south of Route 32, and are on the east and west sides of the creek respectively. Each is isolated but easily accessible. Either would be ideal for a retirement, weekend or vacation spot. No noise, fresh air, good fishing. Good farms capable of producing nice incomes.

All farms have been operated as a single productive unit by Maude and Hanson Flora for many years, but each farm will be sold separately to the highest and best bidder.

Terms, 20% on day of sale, balance on or about April 1st when general warranty deeds will be made. Immediate possession upon execution of sales contract on day of sale. Good tenant available.

Contact the undersigned to inspect any of the farms or inspect them yourselves at your pleasure.

The auction will be held at Flora's Store Building on Farm No. 1 in Pleasant Valley.

Owners in three states say sell, and that I will do.
