**MISS SANDRA BAKER**  
Miss Sandra Baker, 17, died Thursday, Sept. 23, 1971 at the Job Corps Center in Charleston, W. Va.  
Survivors are: mother and father, Mr. and Mrs. Tommy Baker, Lexington; maternal grandmother, Mrs. Mayne McKee, Maysville; three sisters, Mrs. Bonnie Early, Mrs. Marion Sullivan, Miss Donna Gail Baker, all of Lexington; two brothers, Jimmy Baker, Air Force, Billy F. Baker, Jerry W. Baker, Larry A. Baker, and Ronald D. Baker, all of Lexington.  
Services were conducted at 2 p.m. Saturday at the Mather-Shearer Chapel by Rev. Frank Simmons, burial in Carlisle Cemetery.

**MISS EFFIE ANDERSON**  
Miss Effie Anderson, 73, died Friday, Sept. 24, 1971 in Lexington.  
She was a native of Nicholas County, a retired school teacher and a member of the Carlisle Christian Church.  
She is survived by one sister, Mrs. Hinton Caswell, Nicholas County, three nephews and one niece.  
Funeral services were held at 2 p.m. Sunday from the Mather-Shearer Chapel by Rev. Frank Simmons, burial in Carlisle Cemetery.

**MISS ETTA BURKE**  
Mrs. Etta R. Burke, 80, Nicholas County, died Friday, Sept. 24, 1971 at the Bourbon County Hospital after a three week illness. She was a native of Nicholas County and a member of the Methodist Christian Church.  
She is survived by two sons, Bill and Raymond Burke, Moorefield; three daughters, Mrs. Margaret Combs, Lexington; Mrs. George Harney, Lexington; Mrs. Paul Ellington, Bourbon County; two brothers, Joe Reid, Nicholas County and Gilbert Reid, Carlisle; one sister, Mrs. Estle Blake, Carlisle, 15 grandchildren and 10 great-grandchildren.  
Funeral services were conducted at 2 p.m. Monday at Mather-Shearer Chapel by Rev. Allen Kalle, burial in the Longview Cemetery at Bethel, Grandsons served as pallbearers.

**KATHERINE BRANNOCK DOYLE**  
Mrs. Katherine Brannock Doyle, 68, of 1525 High Street, wife of Cecil Doyle, died 1:50 p.m. Thursday, at the Bourbon County Hospital. She was a native of Bourbon County, daughter of the late William Lancaster and Lillie McKinley Brannock. A member of the First Christian Church of Paris.  
Survivors other than her husband, two daughters, Miss Frances Jane Doyle, Paris; two sisters, Mrs. C. Brown, Jr., Paris; two sisters, Mrs. Jack Demon, Flemingsburg; Mrs. Russell C. Day, Paris; three brothers, W.R. Brannock, George Bell Brannock and Ed Brannock, all of Bourbon County; one grandson, Garnett C. Brown, III, Paris.  
Funeral services were held Saturday at Hinton Turner Funeral Home by Rev. Bert Smith and Rev. William Cubbin, interment in Paris Cemetery.

**SHARPER Chapel**, by Rev. Harold Rice and Rev. Dallas Sugg. Burial in the Carlisle Cemetery. Pallbearers, Dawes McCracken Sr., Stanley Wade, Robert Anderson, Henry Hunt, Stanley Alexander and George Hunt.

**Funeral services** were conducted at 2 p.m. Monday at Mather-Shearer Chapel by Rev. Allen Kalle, burial in the Longview Cemetery at Bethel, Grandsons served as pallbearers.

**Truck destroyed by fire Thurs.**  
The oil distributor truck, belonging to the Nicholas County Road Department, was destroyed by fire Thursday at approximately 9:00 a.m. The fire was caused by the explosion of the oil tank on the truck.  
Cause of the explosion was unknown and the truck was a total loss.

*The Old Timer*  
It takes little time to administer a rebuke, but it takes a long time to forget it.

# Growers initiate self-help campaign

Louisville—Kentucky's tobacco growers have initiated a self-help campaign through which they will speak in an organized way for the industry.  
The campaign, to be financed through the Burley Tobacco Protective Fund, will begin around Oct. 1. It will include an intensive program of state and national advertising, distribution of news articles and other information material, and a concentrated effort to prevent additional legislative or regulatory restrictions on the tobacco industry.  
The campaign will be paid for by voluntary contributions of growers to the Burley Tobacco Protective Fund, according to John W. Koon, executive secretary of the Kentucky Farm Bureau, Education, Farm Bureau is serving as custodian of the funds, which have been collected at tobacco warehouses across the state during the past two marketing seasons. Funds collected during the 1969-70 marketing season, Koon added, were used primarily for legal fees involved in a tobacco growers' suit, later dismissed in federal court, against major radio and television networks to stop them from using misleading advertising against tobacco.

Koon said that currently available funds, most coming from contributions during the 1970-71 marketing season, will now be directed toward an information program emphasizing tobacco's importance and to standing up for the industry wherever and whenever it is necessary and desirable. He stressed that this effort will not compete with, but will complement, existing programs which promote tobacco.

Koon thought that much thought and study have gone into development of the campaign, in order that the growers' contributions can be used for maximum effect and impact. Included in the planning

was a comprehensive report prepared by Dr. J. Patton Marshall of Virginia Polytechnic Institute. Dr. Marshall, a native Kentuckian, prepared the report as a means of "bringing all the pieces together in order that we could prepare the campaign on an informed and intelligent basis," Koon said.

"Historically," Koon commented, "it was determined that the campaign should be positive and it should direct itself toward (a) building and/or maintaining public support for the tobacco industry, (b) protecting tobacco from arbitrary action by legislative or regulatory bodies, and (c) keeping the growers themselves informed of developments relating to the future of tobacco."  
The impending campaign, Koon added, will direct itself toward these major objectives as well as branching into related areas where an effort would be appropriate and effective.

"As custodian of funds contributed by tobacco growers," Koon said, "we feel a keen sense of responsibility to the growers to use the contributions to full advantage and in a manner which gives first consideration to the interests of the growers."  
"The Tobacco Protective Fund," he continued, "is a unique and, we believe, a praiseworthy chapter in the continuing history of tobacco in Kentucky. It is a demonstration of unity among growers who recognize the problems of the industry but who, at the same time, consider the production of tobacco a way of life. Growers will tell their story through the fund, and the theme of that story is they want to continue their way of life while a responsible search is made for answers to questions which have been raised about tobacco."

Recently, it is considered an achievement of sorts.  
What made it possible were better-than-usual weather conditions and improved operating efficiency. With more mechanical equipment at their command, they were able to get higher yields per acre.  
In contrast to the results reported for the local area, farmers and ranchers in many parts of the nation suffered a drop in gross income.  
The findings, covering every county, are based upon data assembled by the Standard Rate and Data Service.  
In Nicholas County, it shows, farm receipts for the year came to \$9,218,000, compared with the 1967 total of \$8,422,000.  
That was the gross amount, before taking operating costs and taxes into account.  
Most of it represents cash receipts from the sale of crops and livestock. The rest was made up of government payments and "income in kind" which is the value of the home-grown products that are consumed on the farm.  
A breakdown of the cash receipts from the sale of commodities, according to data from the Department of Agriculture, indicates that approximately 18 percent of it was from the marketing of farm crops and 32 percent from livestock, poultry and dairy products.  
Although many Nicholas County growers have been able to improve their production and raise their gross income, they have not been so successful in turning this gain into greater net income.  
Initiation is the principal culprit. It has increased the cost of fertilizer, feed grains, farm labor, fuel, equipment and practically every other operating expense.
