**Students 'assignment' is to file SS card**

Students 18 and over who get monthly social security payments have an important "assignment" due the end of the school year, according to Ray L. Colyer, social security District Manager in Lexington.  
"Full-time students in school who are 18 and over and are summarized can get monthly checks from social security until they're 22—if a par-  
ent gets social security benefits, or if a parent has died after working long enough under social security."  
"About 380,000 students in colleges, high schools, and trade schools get \$52 million a month from social security," Mr. Colyer said.  
A reporting card is mailed to each student beneficiary about three months before the end of the school year. The student's "assignment" is to fill in the card and mail it back to social security as soon as possible," Mr. Colyer said.  
"This attendance report is used to determine if the student can continue to get monthly checks," Colyer said. "Any delay in returning the reporting card could mean a delay in payments for the student."  
Any student in the Lexington area who needs help with the report or information about his benefits can call the Lexington social security office at 1500 Lescotwood Road. The telephone number is 252-2812.

**Vital statistics reports 'boom' in birth cards**

"June in January" for the Office of Vital Statistics this year didn't mean vacation. Instead it meant more work. West Virginia registrar Lewis Bush says rapid public acceptance of the \$2-credit card-sized birth cards first made available Jan. 4 caused requests for birth certificate copies to rise 25 per cent for the first two months of 1972. Such a work load is similar to the office's regular peak months of June and July.  
During January and February, more than 4,000 Kentuckians whose original birth certificates were on file at the State Department of Health picked up applications at their local health departments or hospitals to order the plastic cards with raised letters. Each blue and white card is an abstract of the original birth certificate and is acceptable proof of age to enter school, complete passport applications, receive social security and insurance benefits, and the like.
