### No expiration notices sent

This newspaper will not send notices this month to those people whose subscription has expired. Each subscriber is asked to look at the number that accompanies the name in the upper corner of this edition to see if the subscription has expired.  
This is being done in an attempt to hold circulation costs down and not be forced to raise the subscription rate, increased postage costs have just about taken any profits realized on subscriptions alone and if notices must be sent to remind subscribers to renew, then the subscription price will have to be increased.
