There is an old axiom in professional football tha says, "The name of the game is quarterback

This season that may have to be amended to read, "The name of the game is tight end." If your team is to be a contender in any of the division races in the National Football League, it is almost mandatory that it possess an exceptional tight

Item — The Baltimore Colts and New York lets were locked in a bitter struggle between Johnsy Unitas and Joe Namath. The Jets nursed a three-point lead and the Colts expected them to keep nursing it. Instead, Namath cranks up and connects with tight end Richard Caster on 80-yard touchdown pass. Three times it was hand to Caster for touchdown and the Jets won it, 44-34. Item — The San Diego Charges give double coverage to San Francisco's magnificent tight end, Ted Kwalick. The Chargers had to spend so much time puring attention to Kwalick that they left Gene Washington with single coverage and John Brodde throwy three them. With that kind of equipment, Lombardi used Kramer to popularize the position.

The problem is that the position is so physically demanding, it uses up talent. The tight end's blocking makes most running games function successfully. When he is not blocking he must run pass patterns against much lighter men.

The new king? The selection here is Kwalick, a supert
