Since the first store opened, the industry has sold over four billion cokes in all. The figure in regular soft drinks today, approximately 180 million cokes are sold each year.

As the cokes' popularity continues throughout the world, the only negative comments come from an occasional young motorist who suspects that it was actually invented by someone who owned a laundry and needed the business.

Breeding is an excellent way to prepare low-cost chicken. A doctor friend of mine always recommends to his dieting patients that they keep a cold broiler chicken in the refrigerator at all times.

Breiled, a chicken breast has 115 calories, a drumstick has 75 calories and a wing has about 50 calories. You can prepare chicken for your oven broiler by halving or quartering it, rubbing the skin with a minimal amount of oil...

If you have outdoor barbecue equipment, broiling chicken over the coals is really tasty. Cut the chicken as you would for oven broiling. If you like, sprinkle a few dashes of hot sauce or chili powder over the flesh before you rub in the small amount of oil...

Charcoal can make a very hot fire so it's best to wait until the coals are glowing red and then spread them out so that they're not touching. Chicken is moist and tastiest when broiled with the skin on so keep in the juices. But, if you're a really dedicated dieter, you can cut chicken calories by about a third by removing the skin, either before or after cooking. If you skin the chicken before broiling, rub a little oil, or sauce, and seasonings into the flesh first to prevent it from drying out.

SUCCESS in MARRIAGE

WHERE TO GO FOR MARRIAGE COUNSELING

DEAR PROFESSOR WILLIAMS: Our marriage has been in trouble for over a year. Recently, my husband and I have separated but neither really wants a divorce. We have three children and have been married over 20 years.

PROFESSOR WILLIAMS: Yes, it could cost as much if not even more depending on where you live. However, there are many places which give counseling service and don't charge anything.

In every city of large size, there are agencies such as family services agency, churches, and family counseling service, mental health clinics, and so on.

As far as expense is concerned, family service agencies and many mental health clinics base charges on a flexible scale involving the counselor's ability to pay.
