

Obituaries

MRS. D.B. CLINKENBEARD
Mrs. Opal Howard Clinkenbeard, 38, formerly of Nicholas County, of Walton, Ky., died Christmas Eve at 9 a.m. at her home. Her parents are Eveline Howard and the late Ira Francis.
She is survived by her husband, D.B. Clinkenbeard; two sons, Joe and Rubin, and a daughter Jeanie Sue, all at home; two sisters—Mrs. Russell Harper and Mrs. Kenneth Harper and one brother, B.F. Howard, all of ERMAR, Ind.
Funeral was held at the Stith Funeral Home, Florence, Ky., on Wednesday, Dec. 27. Burial in the Beaver Lake Cemetery.

CHARLES W. FLORENCE
Charles Walton Florence, 41, of Fanning County, was fatally injured Tuesday, Dec. 26, 1972 in a collision with a state trooper's cruiser in Nicholas County.
Florence, who was employed by the Cadabak Co. cheese plant at Ophir, was enroute home from work when the accident occurred, it was stated.
A native of Nicholas County, he was the son of Mr. and Mrs. Ray Florence of Millersburg.

In addition to his parents, Florence is survived by his wife, Mrs. Alva Reed Florence; two sons, Jimmy Florence, Millersburg, and William Florence, Nicholas County; two daughters, Mrs. Nancy Crawford, Nicholas County, and Mrs. Jackie Anderson, Bath County; a sister, Mrs. Ernest Seapp, Bourbon County, and four grandchildren.
Funeral services were conducted at 2 p.m. Saturday, Dec. 30 at the Mt. Pleasant Methodist Church in Harrison County, with the Rev. Curtis Jones, the Rev. Preston Jones and the Rev. Will Caine officiating. Burial in the Mt. Pleasant Cemetery.

How to re-use gift boxes, cans

Don't be too quick to throw out those good boxes or cartons that hold your family's Christmas gifts—you can make them into handsome containers for everything from hair rollers to sewing materials, not forgetting the coasters and cookie tins you can make out of those plastic-lined coffee cans.

Cover your boxes and coffee cans with self-adhesive plastic, decorate them with tape or tape and label them with colored letters. It's easy to do with self stick plastic—just make sure surface of box or tin is clean and dry. Then cut your

The opening round of the National Football League playoffs had hardly ended when NFL brass began talking about itself. "What can we do in the Super Bowl to surpass this?"

How can anything as super Sunday beat Franco Harris' miracle catch and an onslaught led Oakland to Pittsburgh in the last five seconds?
Could there be a rapid-fire ending in the Los Angeles Coliseum Jan. 14 to equal that in San Francisco's Candlestick Park when Roger Staubach rallied Dallas for two touchdowns within a few eyeblinks to defeat San Francisco?

Could an underdog like Cleveland battle a top-heavy favorite like Miami to a standstill for most of the game?

Past history says no.
For the truth is that, except for the 1971 game, when Jim O'Brien's last-minute field goal beat Dallas, 16 to 13, for Baltimore, most of the games have lacked the genuine excitement of the preliminaries.

Most of the drama in the other Super Bowls was built in.
When the Green Bay Packers met the Kansas City Chiefs in the first Super Bowl in 1967, it was a meeting of legends which had been waiting for seven better years. In the '69 game, it was powerful Baltimore over the old and weak Kansas National League against a team whose quarterback, brash Joe Namath, had shot off his mouth and when Jimmy the Greek had erroneously made a 19-point underdog.

When Kansas City overcame Minnesota in the '70 game, again it was a matter of too much respect for Jimmy the Greek's overvalued reputation. No football can consider the Kansas City Cheeek had erroneously made a 19-point underdog claimed they were.

But the games themselves have been something of a dud.

plastic to fit, allowing for an overlap at seams or edges, and press it down smoothly. Or you can use fabric or gift paper, which you'll have to glue on.

It's a great way to "recycle" your boxes and cans—and you'll have attractive containers for all sorts of things, in kitchen, bathroom, or at desk or phone.

You can make a pretty pencil jug out of a juice can—and never again have to say, "What'll I find a pencil," while you're talking on the phone!

PRO-FOOTBALL

By LARRY FELSER

Even the Jets' dramatic victory was workmanlike and unimpressive. Namath was a conservative quarterback that day, chewing up the Colts with Matt Snell's punt and using his own passing arm judiciously.

The Packers were so workmanlike they should have been carrying punch balls when they defeated Kansas City and Oakland in the first two games.

Kansas City rolled to a quick 16 to 0 lead over Minnesota, and it was a boring football game after that.

Last year Dallas pounded away with its ball-control offense until Miami went overpowered.

Even the one really exciting game, Baltimore against Dallas, was a parade of crucial errors before O'Brien won it with his field goal.

Up to now, the memorable games have been the ones it took to get to the Super Bowl—Miami's double overtime, sudden-death victory over Kansas City; Green Bay's last-ditch win over Dallas, when Bart Starr burrowed behind Jerry Kramer; and those three gems which started things this season.

Let the Super Bowl prove its billing. (© 1973, McLaughlin Syndicate, Inc.)

Possibilities for synthetic oil development?

Washington—Although the National Petroleum Council estimates that synthetic oil sources will be providing less than one percent of U.S. energy requirements by 1985, in the future they could become important new sources of energy.

Just what are the possibilities ahead for synthetic fuels?
Oil shale contains an organic material called kerogen which, when heated to temperatures between 300° and 500° degrees Fahrenheit, releases vapors that eventually can be refined into petroleum products.

Although oil shale occurs over widespread areas of the United States, there are snags. According to current estimates of the Petroleum Today:
1.—One- and one-half tons of rock must be processed for each barrel of oil produced, which will, of course, create environmental problems.
2.—To produce one million barrels of oil a day from shale, an investment of

Feed grain program explanation mailed

A preliminary explanation of the newly-announced 1973 Feed Grain Program is being mailed to Nicholas County farmers with feed grain bases, reports Harvey Wagner, Chairman of the Agricultural Stabilization and Conservation (ASC) Committee.

"As they sort through their Christmas mail, I hope they find the explanation and put it aside for special attention," he said, explaining it is the first official word to be sent directly to farmers on the major provisions of the 1973 Feed Grain Program and Oakland in the first two games.

producers may elect to participate under one of two ways.
One way requires a set-aside acreage amount equal to 30% of the farm's Feed Grain Base. Payment will be on one-half of each Feed Grain Base established for the farm. Per acre payment rates will be equal to the farm program yield times 24 cents for corn, and 30 cents for barley.

Under either option, substitution of wheat in excess of the allotment and soybeans planted for harvest at beans will be considered as feed grain for purposes of reserving the Feed Grain Base.

Commodity loans will be available to all participants in the Feed Grain Program on the farm's entire production. Additional information may be obtained from your local ASCS Office.

January 8 registration at Morehead

The temporary high town at Morehead State University comes to life on Jan. 8 when more than 6,000 students return to start the spring term.
The fall semester ended Dec. 18, and, except for a few maintenance, security and administrative staff members, the campus has been deserted.
Registration for the spring semester begins Monday, Jan. 8, with graduate students and seniors reporting to the Laughlin Health Building starting at 7:30 a.m.

Juniors and sophomores enroll Tuesday, Jan. 9 and freshmen register Wednesday. Classes begin Thursday morning.
The spring break is scheduled March 10-19 and the semester ends Saturday, May 12. Commencement is Sunday, May 13.

Part-time students taking only night and arranged classes register Saturday, Jan. 13, from 8 a.m. until 11:30 a.m. at the Health Building. Night classes begin Monday, Jan. 15.

Part-time students taking only night and arranged classes register Saturday, Jan. 13, from 8 a.m. until 11:30 a.m. at the Health Building. Night classes begin Monday, Jan. 15.

Deed recorded

Carl R. George and wife, 1 acre more or less on Highway 22 to Gary C. McLeod and wife.

McCarty Bros., 188 acres, more or less on East Union Road to Stanley R. Buschell and wife.

Stanley Buschell and wife, 188 acres, more or less on East Union Road to Kenneth Stephenson and William T. Dampier.

Tony B. Thompson and wife, 83.9 acres more or less on Highway 57 to Lewis Payne and wife.

H.C. Caswell and wife, 82 acres on Concord Turnpike to Francis Watson and wife.

Sadler Construction Co., Inc., lots 8, 9 and portion of 10, Section A Lake Carmo Estates to Grace C. Kiddish.

Melvin Wills and wife, two tracts of land on Wheatstone Road to Charles R. Manley and wife.

R.F. Alexander and wife, house and lot in Alexander Subdivision to Harry D. Galbraith and wife.

Danny Sampson and wife, one acre on Tanner's Branch to Spencer Taylor.

James T. Vaughn and wife, two lots in Dorey addition to Ronald C. Howard and wife.

Lae G. Ketney, 82 acres more or less on Headquarters-Saltwell Road to Richard Cain and wife and James Hedler and wife.

Rev. W. Glass and wife, tract land on East Union Road to William F. Dale.

Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q) My employer transferred me to another state last year and as a result I plan to claim a moving expense deduction. In addition, my wife and I are thinking of filing separate returns. Are the dollar limitations on moving expenses different for spouses filing jointly and separately?

A) In addition to direct costs of moving, expenses may be deducted for the sale or purchase of a residence or the termination or acquisition of a lease, house-hunting trips, and temporary lodging and meals at the new location. However, the total deduction for these three categories cannot exceed \$2,500 with the latter two limited to no more than \$1,000 in total. The limitation is half the above amounts, \$1,250 and \$500, for certain married couples filing separate returns. However, if you and your wife file separate returns, the \$2,500 and \$500 limitations do not apply:

1) Only one spouse commences work at a new principal place of work for which a deduction is allowable, or

2) Both spouses commence work at new principal places of work which are at least 50 miles apart and they do not reside together at the same residence during the taxable year.

Under the second situation, a husband and wife filing a joint return may each deduct up to \$2,500 for expenses in

connection with the sale or purchase of a residence or the termination or acquisition of a lease and \$1,000 for expenses for house-hunting trips and temporary lodging and meals at the new location.

Married couples who meet the qualifications under the revised rules may disregard the dollar limitations for married filing separately listed on Form 2980, Moving Expense Adjustment.

Q) Some friends and I are planning to form an investment club. Does the IRS have a publication on the tax duties and responsibilities of members of such a club and its members?

A) Yes. Call your local IRS office or write to your IRS district office and ask for a copy of Publication 550, Tax Information on Investment Income and Expenses. It's available free.

Q) I should have filed an estimated income tax return last year, but I didn't. Will I have to pay an estimated tax penalty this year after my Form 1041 is processed?

A) The six percent penalty for underpayment of 1971 estimated income tax does not apply in the case of single persons with gross incomes of not more than \$10,000 or married persons filing jointly, heads of households and surviving spouses with incomes of not more than \$20,000 provided the taxpayer did not have more than \$200 (\$400 in

the case of married taxpayers filing jointly) in income other than wages. In addition, the waiver applies only for tax year 1971.

For more information on estimated tax, see Publication 695, Tax Withholding and Declaration of Estimated Tax. It's available free by dropping a postcard to your IRS district office.

Q) My son purchased a car last year. Does the amount he paid count toward his support when I figure out whether or not I can claim him as a dependent?

A) No. The purchase of an automobile, whether by you or your dependent, is not considered when determining total support.

Q) If I let the IRS compute my tax, will it delay any refund I may have coming?

A) No. The IRS can compute the tax and issue a refund within 4-6 weeks from the date the return is filed with the service center. So, actually, your refund will not be delayed by having IRS compute the tax since the computations are checked on all returns received.

Q) Do you have to use sales tax tables in your tax forms instructions to compute your sales tax deduction?

A) No. If you kept records, you can deduct the actual amounts you paid in sales tax for 1971. However, if you use the sales tax tables to determine your deduction, you may deduct the amount shown on sales tax paid on the purchase of automobiles, airplanes, boats, mobile homes and materials to build your own home.
