

Girl Scout Week March 11-17

Girl Scouts today is far more than cookie sales and handicrafts. As the national commissioner, Girl Scout Week-March 11-17-millions of girls will be working in community service projects such as tutoring, younger disadvantaged children, conducting "mini-parties" on vacant city lots, drug abuse prevention and ecology to name a few.

GSA is the girls' largest voluntary organization for girls, with a membership of over 4 million girls and 69,000 adult leaders. Since its inception in 1912, Girl Scouts of America has instilled girls

MERCURY VAPOURS

By Warren R. Fisher

Has Spring sprung? It certainly felt like it Monday and what the thunder and lightning did to Sunday evening will probably be done in a repeat Monday afternoon. Far from it, though, but Monday was rain-charmy.

If you haven't figured out how many hours you work for Uncle Sam, the state and federal governments are one thing certain, you're learning to be a good worker, even if you're not paid for it.

GAME MONEY

Dr. Robert Sparks, president of the Nicholas County Recreation and Park Board, expressed his appreciation to me Monday, thanking the Mercury for its efforts in making public the investigations between the Head Hoods and local officers. He said that the board members event netted nearly \$1,000. He added that the board had had a meeting and discussed some federal funds would be organized and that work on the facility may begin again soon.

POWHE MEMORY LANE

With premiums totaling \$14,750 were announced this week by the insurance company for the 1993 VFW Horse show, to be held June 2.

Charles Hopkins, 38, Carlisle business manager of the city council at a called meeting Tuesday, to fill the vacancy caused by the resignation of Wm. Buntin Sr.

Elmer Dampier has been chosen as superintendent of the Bible School at the Christian Church, according to Rev. J.J. Whitehouse.

Mrs. Harvey Waggoner, Mrs. Ward Ecton and Miss Emma Barnes attended the District Home-makers meeting in Winchester, Thursday.

MARIEE-Miss Maryella Groves to Walter Wright, Robertson county, March 4.

DIED-Mrs. Margaret Frances Horch, 82, Tuesday in Tilton—Mrs. Adie Lee (Cook) Voss, 81, Saturday—The Rev. Luther Mann, 87, March 4 in Paris—Mrs. Fannie Eads Johnson, 74, Paris, Sunday—Mrs. W.C. Kerton, 65, Monday in Mayfield—Mrs. Annie Payne Crawford, 68, Saturday in Lexington, Saturday.

JEFFERSON COUNTY ASSOCIATION OF FARMERS

Producing Manufacturing Milk
 Nicholas County farmers who could use a dairy operation are being helped to find out more about producing milk and the many benefits it will also be discussed.

Jefferson County has 167 and Louisville has 132 units. These require specially trained men and women in numbers in the area.

Another alternative is to try to get into the state system operated by the Mental Health Department. The big new facility at Somerset is the jewel in the state system and there is another at Dawson Springs, plus some cottage-type facilities. The mental health department is establishing a branch in the county.

These two organizations are the Franklin County Council for Children with Learning Disabilities and the Franklin County Association for Retarded Children.

What is happening here and all across the state is that the budget for this biennium provided for a certain number of these classroom units and there simply are not enough money to provide a full program in every school system.

Nicholas County vets to get \$8,000

World War veterans in Nicholas county will have maintenance on their GI benefits in force will be on the receiving end of some extra cash this year.

Some 100 of them will receive approximately \$8,000 a year share of a recent payout of dividends totaling \$277 million.

The bulk of the money, \$275 million, it will go to 300,000 World War II veterans who hold National Service Life Insurance policies, reports the Veterans Administration. The remainder will go to 14,000 veterans of the first World War, who have United States Government Life Insurance.

The \$277 million payment is the largest regular dividend ever declared by the VA. It is \$11 million above the previous high. It has become available because the interest earned by the trust funds governing the insurance policies has been unusually large.

FASHION 'N' FABRICS

USE YOUR REFRIGERATOR RIGHT
 Refrigerators are durable, usually running along for 15 years or so without giving you any trouble. But they are one of the most expensive appliances you can buy. Hence, proper care and maintenance is important.

Use Old Refrigerator. Twice a year remove and clean the defrost water pan and drain. A dirty pan can cause odors and interfere with proper operation. Also vacuum the condenser coils (located the top plate or on the back) once a year from this year.

To avoid odors, wash the interior regularly with baking soda and water. If food spills, clean it up immediately. The mess could give the drain that carries the defrost water away.

Check regularly on the little packages of soda and acid that accumulate in the refrigerator. Use them or get rid of them before they spoil and perhaps contaminate other food.

If your refrigerator stops running, don't rush to call a serviceman until you first check to see that it's plugged in, that the house fuse isn't burned out and that the defrost water is flowing.

A New Refrigerator. It should have an ice 120 volt, 15 amp circuit, and a three-prong grounding plug to safeguard against shock. Use the adjustable feet to make sure the refrigerator is level - if it isn't the motor will have a hard time.

Check the interior of the refrigerator before you plug it in, not forgetting the ice cube trays. Set the controls according to the manufacturer's recommendations and then leave them alone. If you have an ice cube maker or a cold water dispenser, make sure the cold water line is on an extra four or five feet long so the refrigerator can be moved out after the controls are set to the proper temperature.

Use a Double Strain of Thread with a Knot at the end. This is the best way to secure the thread and secure through the holes. After the first stitch, pin a button through the thread and secure the thread through the hole. After the second stitch, remove the pin and secure the thread through the hole. After the third stitch, remove the pin and secure the thread through the hole.
