## Red Cross seeks local aide for disaster victims

An unprecedented series of 81 floods, tornadoes, explosions and other disasters affecting hundreds of thousands of persons in 22 states since Mar. 17, has made it necessary for the American Red Cross to launch a special fund campaign to assist disaster victims. Ralph Shearer, Nicholas County Chapter Chairman of the American Red Cross, announced Monday that the local quota is \$100. One of the first and hardest hit states in the series of disasters was neighboring Tennessee, where damage estimates

were put at over 66 million dollars after torrential rains sent streams scurrying from their banks and into thousands of homes. In addition to the area along the Mississippi River, which includes four Kentucky counties, other sections hit hard recently were in the Denver area where heavy rains drove thousands of persons from their homes. Those desiring to contribute are urged to send checks payable to the American Red Cross and mail to the local Chapter, John Allison, treasurer.
