State Auditor Mary Louise Foust is driving a new car. It is a Gremlin and carries the same message her 1970 Chevrolet carried, "Privately Owned Vehicle." She said she purchased the smaller car because she heard there was a gasoline shortage, a message many persons apparently have not yet heard. Several months ago when an official memorandum was issued concerning the purchase of new state owned vehicles for officials, Miss Foust promptly disposed of hers because she has always driven her privately owned vehicle. This prompted a call from an official in the Office of Finance and Administration reciting what the memo had said, and asking what kind of car she wanted. Joyce A Morse, the Assistant State Auditor, told the caller that Miss Foust did not drive a tax supported automobile, and there would be no purchase requisition for one.

MAGICWORD by JULIE QUART

HOW TO PLAY: Read the list of words. Look at the puzzle. You'll find these words in all directions — horizontally, vertically, diagonally, backwards. Draw a circle around each letter of a word found in the puzzle then strike it off list. Circling it will show a letter has been used but will leave it visible should it also form part of another word. Find the big words first. When letters of all listed words are circled, you'll have the given number of letters left over. They'll spell out your MAGICWORD.

Social Security card needed

The Christmas holidays are just around the corner and many students will be working during the time off from their studies. If you're one who will be working, you will need a social security card.

It takes about four to five weeks to get a social security card so the time to apply is now, before the actual need arises. All you have to do is contact your social security office and they'll take it from there.

Social Security may not seem important now, but it will be mighty important at three critical times in your life; when you retire, in the event of your disability, and at your death. The work you do now under Social Security could have an effect on the amount of your benefits and even might determine if you could receive one at all.

Two cars involved in minor mishap

Two cars were involved in a minor traffic accident on the Carpenter Pike in Nicholas county at 3:20 p.m. Thursday, State Trooper Steve Roy reported.

Trooper Roy said a car driven by William Hamilton, Vimont Street, Millersburg, struck a car parked at the side of the road, the parked car being partially on the roadway.

The trooper quoted Hamilton as saying the parked car was in the shadow of a barn next to the road and he did not see it until he was right on the vehicle.

The parked car was owned by William Ritchie, Main Street, Millersburg.

Ed Taylor named to Lexington post

FRANKFORT, Ky.—Kentucky's Department of Finance and Administration has announced the recent appointment of Edward C. Taylor, 28, of Lexington, as manager of the Division of Management Services.

He replaces Paul R. Pratt, who resigned his post as division manager.

Taylor, a native of Carlisle, had served as assistant manager of the division.

He received a degree in business administration from the University of Kentucky, worked as a computer programmer in the Kentucky Department of Finance and was later employed by the Cowden Manufacturing Co., Lexington, as a systems analyst.

One hour of farm labor in 1972 produced over twice as much food as it did on 1957-59. During this same time, output per manhour in non-farm work has increased 78%.
