Medicare cost increase told

HEW Secretary Caspar W. Weinberger has announced that a Medicare beneficiary will be responsible in 1974 for the first \$4 of his hospital bill, an increase of \$12 over the present amount. The law does not give the Secretary any discretion in setting the Medicare hospital deductible but requires him to determine it for each year on the basis of the average daily cost of hospital care under the program. The base year is a calendar year preceding the prescribed time for the Secretary's announcement. Thus, the current increase is based on 1972 data and reflects increased hospital costs in that year.

When the hospital deductible amount changes, the law requires the Secretary to make comparable changes in the dollar amount a Medicare beneficiary pays toward a hospital stay of more than 90 days, or a posthospital extended care stay of more than 20 days. In 1974, when a Medicare beneficiary has a hospital stay of more than 90 days, he will pay \$11 a day for the 91st through the 90th day, up from the present \$10 per day. If he has a posthospital stay of over 20 days in an extended care facility he will pay \$10.50 per day toward the cost of the 21st day through the 100th day, up from the present \$9 per day. If a Medicare beneficiary ever needs more than 90 days of hospital care in the same benefit period, he can draw on his "lifetime reserve" of 60 days, and will pay \$4 for each day used instead of the present \$18 per day. Secretary Weinberger also explained that the increase is consistent with the Cost of Living Council's policy governing price adjustments in the health industry.

Conservation meet to be in Louisville

A "Conservation Congress for Land Use Planning" will be held Nov. 14 and 15 at Stouffer's Inn in Louisville.

The Congress will give Kentuckians an opportunity to hear prominent speakers discuss state and local problems in land use planning under the upcoming federal legislation. The federal law will probably require state legislation to implement it.

Party in the party for progressive reform-minded government." Miller stated that "Passage of this amendment on Nov. 6 will continue the efforts of the Democratic Party to bring government back to the people."

The amendment provides for a 45 day annual session rather than the present 60 consecutive day session every two years. Proponents of the amendment claim that the present structure which was created in 1893 has ceased to be functional in modern times. The Legislative Reform Amendment will be amendment No. 2 on the Nov. 6 ballot.

expenses. However, there was some net gain. The Agriculture Department reports gross income at \$68.3 billion, an increase of \$9.2 billion over the prior year. Production expenses remain the same period to \$49.2 billion, which was \$4.7 billion above 1971. As a result, net farm income went up \$4.5 billion in the past year. All signs point to a much bigger improvement in the current year.
