## NEXT WEEK'S HOROSCOPE

By Clay R. Poffin

Now planetary ruler of your birth symbol

FOR BEGINNING MONDAY, APRIL 29, 1974

A: If your birthday occurs this week, you will find this a good week to show. You may have definite help from your partner, and when you want to be with, social and occupational interests. You will be entertained by people of authority and power. The week will be beneficial. You will have a successful week.

Extensive contact is necessary in travel, communications, interviews and social contacts. When you work alone, you are apt to achieve more. Guard against complacency in food and lodging. As the week advances, there are improvements and greater harmony. Scripted letters may arouse envy.

Advise new ideas. Seek cooperation.

Work week: Apr. 29 - May 20. Venus ♀ This is a fine week for solid work. Forge ahead with your own activities. Be more confident. Money affairs will prove very profitable. You may have to make compromises about work if you join up with a crowd of people, be prepared to feel at ease. Be very shy. There's a tendency to neglect personal comfort. Aim at regular meals.

Mercury ♁ May 21 - June 20. Mercury ♁ You may have to travel a way you would prefer not to travel. Loved ones will be very wanting and you may have to make compromises about work. If you join up with a crowd of people, be prepared to feel at ease. Be very shy. There's a tendency to neglect personal comfort. Aim at regular meals.

Moon ♀ June 21 - July 21. Moon ♀ Potentially a week full of shock and surprises. You will probably be shocked about information you learn about a friend and you will be surprised when sudden success comes in something you have worked on. Daily interruptions, seek advice and interview. Do not let legal affairs.

Leo ♄ July 23 - Aug. 22. Sun ☉ Lucky stars shine on most all activities. Disinclination to work will give you a saving. Social engagements will prove very exciting. Financial outlook looks between 7:00 and 8:00 p.m. Ask for help. Wilma Getz. 4-18-1974.
