Agri-Business professionals speak to sixth grade

By Margaret Duncan

Four persons have talked to our Sixth Grade Career Education classes on Agri-Business in the last two weeks.

Mrs. H. C. Caswell, who along with Mr. Caswell, recently returned from an agricultural tour of several foreign countries. She spoke to our class about farming in these countries, and that some land sells for $1,000 an acre. They spent several days in Russia. She showed slides of her trip.

Paul Hall spoke to us about Agricultural Stabilization and Conservation Service (ASCS). He is head of the office in Carlisle. ASCS began in 1933. Then it was called AAA, and then PM. There are 103,000 ASCS offices in the United States. They help farmers with farm problems. He told us there are 882 farmers, and six million pounds of tobacco produced in Nicholas county.

Dr. James Noll, local veterinarian, spoke about his work. It takes six years of schooling to become a veterinarian. He spent five years in the Navy before going to college to veterinarian school. He said he works mostly on cattle.

Billy House is a farmer and he works at the Carlisle First National Bank. He graduated from Eastern Kentucky State College. He said that a banker doesn't really need to go to college. A bank has many services, such as checking accounts, savings, loans, travelers checks and others.

When making a loan there are certain things that a banker looks for in a person, such as if the person really needs the loan, what the person is like, if the person has any collateral, and others.

Ratliff named team leader at Care Center

The appointment of Ronald Ratliff as Team Leader of the Nicholas County Comprehensive Care Center was announced by Franklin D. Baker, Center Director, of Bluegrass West Comprehensive Care Center. Mr. Ratliff replaced interim Team Leader, Dr. James Pruiett.

Ratliff, a native of Jenkins, received a B.A. degree from Berea College in 1963 and an M.S.W. from the University of Tennessee in 1973. He has previously been employed as a case worker, project director, and county director for the Tennessee Department of Public Welfare. He served as administrative assistant with the University of Tennessee Area Health Education Center and Director of Social Services of the East Tennessee Chest Disease Hospital in Knoxville.

Among the services offered by the Nicholas County Center are psychiatric, psychological, and speech diagnostic evaluations; individual and group psychotherapy, alcohol, drug, children and family counseling; and mental health and mental retardation

MAGICWORD

HOW TO PLAY: Read the list of words. Look at the puzzle. You'll find these words in all directions — horizontally, vertically, diagonally, backwards. Draw a circle around each letter of a word found in the puzzle then strike it off list. Circling a will not be a letter has been used but will leave a visible should it also form part of another word. Find the big word first. When letters of all listed words are circled, you'll have the given number of letters left over. Then, unscramble and you have MAGICWORD.

THANKSGIVING TIME Sol.: 11 letters

Kidney Foundation candy sale success

The Kidney Foundation of Central Kentucky candy sale recently concluded in Nicholas county was a resounding success! A total of 624 Tootsie Roll banks were sold in the county, Mrs. Martha Taylor, chairman of the organization, has announced. This candy was sold by members of the Nicholas County F.H.A. Chapter.

The candy sale is the major source of funds for the Foundation and its programs. The Kidney Foundation of Central Kentucky has provided four kidney machines to the home dialysis unit to be used by patients who may not be able to acquire their own machine. The Foundation has helped to purchase a perfusion machine which will preserve a kidney for 24 hours before transplantation.

The organization provides I.D. tags to patients so they can be identified as people who need special attention in the event of an accident. A portion of the money goes to support research to find the cause and prevention of kidney diseases.

Mrs. Taylor said that in Kentucky about 75 persons are waiting for transplants. The average wait is nearly a year. Some wait 18 months or more and some won't survive until donor kidneys are available.

Even though much progress has been made in treatment of kidney disease, it will be of little value unless people are aware of the part they can plan in providing kidneys for those who need them.

The Kentucky Kidney Foundation helped sponsor a 1974 General Assembly bill which will authorize donor cards to be placed on the back of Kentucky driver's licenses after January, 1975. If the donor card is signed it will authorize removal of specified organs for transplantation purposes after death of the donor.

It is hoped the information on the licenses will increase public awareness of the need for donors.

U.K. challenges Tenn. Saturday

Wildcats assured of winning season

The University of Kentucky Wildcats, assured of their first winning season since 1965, will lay a three-game winning streak on the line when they meet resurging Tennessee Saturday afternoon in Knoxville.

The Wildcats upped their record to six wins and four losses Saturday with a scintillating 41-34 upset of the eighth ranked and Sugar Bowl-bound Florida Gators in a game regionally televised by ABC-TV from Commonwealth Stadium.

It was the second weekend in a row that the Wildcats were featured in a regional telecast from their stadium and the second victory in a row over a bowl-bound team.

A week earlier, they defeated the Peach Bowl-bound Vanderbilt Commodores, 38-12.

In each of the televised games, Wildcats walked off with the $1,000 scholarships given by the program sponsor. Mike Fanuzzi was named the outstanding offensive player of both games while linebacker Mike Emanuel captured defensive honors for the Vanderbilt game and Tom Ranieri for the Florida game.

In the process of defeating Florida, sophomore kicker John Pierce kicked a 52-yard field goal, beating his school record of 48 yards set against LSU and equalled against Vanderbilt.

Playing without their star runner Sonny Collins, who received a broken leg in the Vanderbilt game, the Wildcats gained 334 yards in 69 carries, increasing their season total to 2,315, well ahead of their school record 2,518 yards set last year.

In 10 games to date, they have a total of 583 rushing plays, compared to the school record 592 set last year and they are rushing along at a clip of 201.5 yards per game, ahead of the record 228.2 average set by last year's squad.

The 1950 squad set a record of 4.7 yards per carry, which will be broken if the current Wildcats continue at their 5.0 per carry pace. The record of 136 downs rushing held by the 1952 team is also in danger, with the current squad totaling 134 to date.

The Volunteers, who made it nine in a row with a 16-14 victory over the Wildcats after a closing seconds field goal fell short of the mark last year in Commonwealth Stadium, defeated Mississippi, 29-17, Saturday in Memphis.

The victory was the third in a row for Tennessee, which now has a record of five wins, three losses and a tie.

Kentucky last defeated the Volunteers, 12-7, in Knoxville 10 years ago. The Volunteers lead the series, which began in 1893, by 4-3-0.

"At the half, the Cats decided they only had 30 minutes left and they were going to give it everything they had to win that ball game," Curci said. "The rest is history."

sessions and 21 seminars were designed for the Extension 4-H and youth agents' professional improvement. The feature speaker, Dr. William E. Thorn, pastor of the Metropolitan Baptist Church, Wichita, and keynote seminar speaker, Dr. William Glasser, president of the Institute for Reality Therapy, Los Angeles, set the tone for the professional conference.

The Kentucky Association of Extension 4-H Agents were much involved in the conference program. Jerald Rose, County Extension Agent for 4-H, Scott county, was elected the National Association of Extension 4-H Agents Treasurer, and three Kentucky 4-H agents served on National Committees. Ben Davis, Russell county; Helen Horton, Campbell county; and Ray Russell, Daviess county, received special recognition at the Distinguished Service Awards Banquet.

The Executive Association will be hosting the NAE4-HA Conference in 1975 at the Executive Inn, Louisville, with an expected attendance of 1200 delegates. At the Wichita Conference, the Kentucky delegation presented a slide presentation and skit promotion on the 1975 Conference during the closing session. Sara E. Elmer is serving as chairman of the 1975 NAE4-HA Family Program Committee.
