## Kentucky moves to second place in 'signing up'

Young men, age 18, generally have responded in registering with Selective Service. This timely response has enabled Kentucky to move into second place among the states in the "signing-up" of its estimated eligible pool of males born in 1956 according to Col. Taylor L. Davidson, State Director.

## "Full loads mean full value from your electric water heater"

Follow these tips for your laundry center expert and you not only use electricity wisely but also your laundry appliances and water heater. Wait till you can wash full loads (which means more efficient use of your clothes dryer, too). If you must wash smaller loads, adjust water level according to instruction manual. Don't overheat water. Keep thermostat at 150-155 degrees.

**USDA issues tobacco report**

Although growers will harvest slightly over 6 million pounds of tobacco this year—18 percent more than in 1973—the present crop will not cover domestic use and exports, according to USDA's latest tobacco situation. Domestic manufacturers and exporters may need about 2.1 billion pounds during 1974-75. Supplies look lighter than last year, and prices to farmers have averaged 14 percent above the second week of September, flue-cured tobacco farmers were receiving an average of 14 percent above year earlier prices.
