SCRIMMAGE SATURDAY

No score kept; players 'super'

No score was kept at the controlled scrimmage game Saturday night between the Nicholas County Bluejackets and the Clark County Cardinals.

Coach Ben Pumphrey said Monday that he was "thrilled because we were able to hit on relatively even terms with such a fine team. We are not willing to point out individual play because we would probably leave some out. All of them were super." Forty boys played for Nicholas County during the scrimmage.

"Clark County is one of the biggest schools in the state. It is very capably coached by Head Coach Don Danko, Marty Joyce and Dinky McKay all of whom played at UK." Coach Pumphrey commented.

The Bluejackets open the season Aug. 29 against East Carter away.

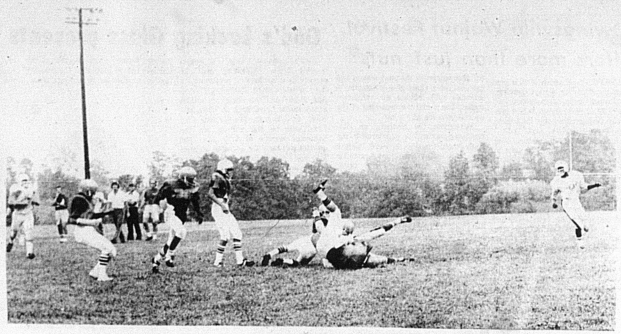
LL tourney Aug. 20

A Little League Baseball tournament will begin on Wednesday, Aug. 20. The following teams will be involved: Camargo, Mt. Sterling, Ervin, Bath County, Paris, Cynthiana, and Carlisle 1 and 2.

All proceeds will go to the Little League Association.

Donkey ball game Sept. 8

The Donkey Baseball Game, sponsored by the Babe Ruth League, has been re-scheduled for Monday night, Sept. 8, at the Nicholas County Recreation Park. Tickets may be purchased at Hopkins Drug and Dee Jay Auto Parts. Tickets bought for the previously scheduled game, which was rained out, will be honored at the game.



TO THE RESCUE

Nicholas County players rush to protect the goal they so carefully guarded, from the running back for Clark County. They succeeded as he is down in the center of the photo.—Riggs photo

ON-LOOKING FANS

Interested and waiting for the next play to begin are the many fans from Nicholas County who turned out to see Nicholas County football players in action for the first time this season.—Riggs photo

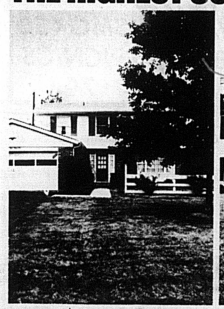
WHICH HOUSE HAS THE HIGHEST COOLING BILL?



Most people would readily guess the larger house costs more to air condition. It might not. The size of a house is only one factor that determines its cooling bill.

When your home is properly insulated, your air conditioning unit doesn't have to work as hard because less heat enters through the walls and roof. This can save you one-fourth or more of your electricity costs.

The energy picture has changed dramatically in the past couple of years and people want all they can get for their air conditioning dollar. Many are turning to electric comfort conditioning for summer and winter. We can help you plan your electric heating and cooling system, recommend proper insulation and we give you a free operating cost estimate. Just contact our local office.
