## Rabies outbreak can occur

Because of the recent rabies outbreak in the surrounding area and the fact that a dog died of rabies in Nicholas County, the Nicholas County Health Department is urging that dog and cat owners have their animals vaccinated against rabies.

The Rabies Control Law, which requires all dogs over six months of age to be vaccinated against rabies, makes an owner liable for any person bitten by an unvaccinated dog, if the dog is rabid.

Even though the reservoir of rabies lies in our wildlife, the most effective barrier between the woodland wildlife and the Kentucky resident is the immunization of household pets. New recommendations indicate that dogs and cats can and should be vaccinated as early as three (3) months of age. The facts that unvaccinated dogs pose the greatest source of danger is because they are "members of the household" and the constant companions of man.

A rabies clinic is being held on Saturday, Aug. 30, from 9 a.m. to 1 p.m. at the Nicholas County Health Center. The charge for the vaccination which lasts three years is only \$1.50. This is a small price to pay to safeguard someone else's life.

If you own a cat or a dog, want you see that the pet is vaccinated against rabies. This clinic is a good time to take care of this safety measure.

## Mercury vapors

to car rolling up windows. I could almost hear him saying "hissah," "I wonder what that 'hissah' is, 'dephah' mine will be!"

But did you ever sit down on a wet seat in your newspaper for Fox Park several people didn't have to contend with Saturday afternoon.

Where did it go? There did that ball want? It's sitting up in the big walnut tree enroute to hole three. We signed two and the best FM station in the area, and I guess if Lake Carmo was up 'bout 200 feet high, it'd add 30 feet to the hill from water level, plus 50 feet of tower, plus a darn amp antenna—I'd just have to be content with local area FM.

"Rain dogs falling like rain on my head"

Some persons leave their car keys in the dashboard places—now I wouldn't have known anything about these "places" if not awaiting through the auto hole (gold that is), the downpour came, I was wet to the skin, Toby was in as car laughing at me as I ran from car

**Better Prices for Feeder Calves**

How can you get better prices for calves this fall? One way is to sell your calves to the University of Kentucky Extension Livestock Marketing Specialist at the University of Kentucky College of Agriculture.

You can do this by selling your calves at any of the 50 specialized county feeder calf sales to be held across Kentucky this fall. The sales will take place at 20 different locations, to first sale held Aug. 8 at Smith's Grove. The final sale of the fall series will be on Dec. 21, and will also be at Smith's Grove.

The special sales will be conducted by farm-members of local feeder calf associations in cooperation with local auction markets, the UK Cooperative Extension Service, and the Kentucky Beef Cattle Association.

When you bring calves to one of these special sales, they are sold in groups with calves brought in by other farmers. The calves in each group are similar in size, sex, color and quality. This system of selling gives buyers an opportunity to buy large, uniform groups of calves.

"Marketing studies have shown that large groups of calves are more attractive to buyers," says Mackey. "A calf sold as part of a large group will bring more per hundred weight than a similar calf sold by itself."

"The average farmer in Kentucky has only ten calves to sell at one time, and his calves are not likely to be uniform," the UK specialist continues. "He must put his calves together with those of other farmers if he is to get a price advantage from group selling. Some 60,000 head of calves are expected to be sold in the fall series of sales to be held in August, September, October and November. Hereford, Charolais, black whitefaced, and Holstein calves are coming on."

I don't have any money to pay for the ad but I would do this for me I would appreciate it very much. Just say:

## Letters

from our readers

**To the Carlsle Mercury:**

I was born in Carlsle but at the present time I am an inmate in the Correctional Institution here at London, Ohio, and since being here I have had all contact with family and friends. I am writing you in hopes you would run an ad in your newspaper for Fox Park for me.

I don't have any money to pay for the ad but I would do this for me I would appreciate it very much. Just say:

**Mr. Paul Wanted**

I am in the Correctional Institution, 12 cents and 11 cents; turkeys, 11 cents and 12 cents.

**BORN:** To Mr. and Mrs. Orville Howard, a son, Aug. 24.

**MARRIED:** Miss Lucille Troy, of Nicholas county, and Mark Stranahan, of Sharpshooter, Saturday afternoon in Mt. Sterling.

**DIED:** Eugene Workman, 19, last Wednesday night at the home of his parents—Mrs. Marion Bruce McKinley, 21 her home in New York City Saturday—James McCann, 73, early Tuesday morning at the home of his son, Charles H. McCann, in Flemingburg—Mrs. Sallie Farris Melville, 31, at noon Thursday.

## 20 and 40 years ago

**Thursday, September 1, 1953**

The local Boy Scouts, along with Everett M. Smith, left for Mt. Sterling and Columbus, Ohio Fair on Wednesday. The boys camped out at the early part of the week.

Mrs. Martha D. Carpenter, mother of Roger B. Carpenter, received a \$100 check from Reader's Digest for a short anecdote she submitted to "Life in Those United States" which will appear in the September issue.

Nicholas County's Future Farmers of America (FFA) boys will participate in the Kentucky Future Farmers of America contest. The boys will compete for prizes totaling \$25.

The Nicholas County Jail was painted this week. The jail, painted by Carl Watkins, is red with white window trim.

**BORN:** To Mr. and Mrs. Eugene Clunkerbeck, a child, a daughter, Aug. 30.—To Mr. and Mrs. Everett Sapp, Dora, a daughter on Aug. 27.—To Mr. and Mrs. Raymond Moyer, a daughter on Aug. 29.

**DIED:** Wendell Holman, (Candy) Ruyton, 51, in St. Joseph Hospital, Aug. 22, at his home, 4015, at his home Aug. 29.—Logan H. Maffett, 73, at the Good Samaritan Hospital.

## We waltz through life to tune of biorhythm scale by Russ Metz

quoted the following prices for produce Wednesday: eggs, 22 cents and 23 cents; hens, 12 cents and 13 cents; roosters, 7 cents and 8 cents; springers.

My old hand director put me in the place when I came out for the band by telling me "I was tone dead, but I had a feel for rhythm."

What was meant was I had a tune and couldn't carry a tune in a wash tub, but I could get my foot in time if I were shoes that fit.

So he did what all band directors do with their clunks. He banded me to the music bridge and our band could safely claim they marched to a different name.

The maestro told me I saw a drummer who could get so many beats out of a piece of music, most of them were in the wrong place at the bottom of my biorhythm scale when even I

of it was nothing to write home about. Biorhythms have been around a long time. But I recently was it properly discovered.

Vinence Irish Hermann Swoboda had it figured back before people needed it, he didn't get far trying to make it all say one thing and down in trying to get people to take him seriously.

The Vienna woods was full of herbs, chanting these three cycles at a grab gives each year and in each year each year and tells us when we ought to be hiding under a rock and when we ought to be climbing tall mountains.

This sounds as if bi-

regular pattern of days, rhythm charts being on a crypy tone, next to crystal balls and star charts which is probably the best place to help them, you're more likely to find them in business offices, sport locker rooms and tucked up in front of the desks of a lot of people who make big decisions.

Extensive testing and study have shown that the theory behind biorhythm is sound, giving it the respectability as the ouija board and horoscope. I tried to use it, but my biorhythm got stuck at the bottom and refused to shift into high gear. The physical cycles could be alcohol and grief into climbing tall mountains.

Slip-ent mariners use the

## If you read this...I can only hope you get or see the point!

(Here's an article that I've tried for at least three weeks to get published in the Carlsle Mercury - I blame no one but myself. I just haven't had time to get it into the newspaper of my own accord.)

You may agree with what the state writer says and you may disagree, but you should know that the state writer is right. It is one thing you can do with your money, but it is another thing to get a piece of fish, but I'd say you to get the point across with other radio or TV and print media.

By Diana Peters

FRANKLIN was a person who began to dream about the all-American boy everbody had. He was captain of the varsity football team, made good grades, dated the most popular girl in school and was a member of the Glee Club. His father was a minister and a community leader, and Joe was named to follow that successful lead.

Actually, Joe, though not average, was typical of most boys who strive to meet the expectations of parents and society. He was the son of a minister, he was expected to marry the "right girl." Because he was popular, he was invited to all the parties and expected to drink.

Joe then met and married a girl who seemed both sane and his problem. And, during the nine years they were married, Joe periodically "took to the road" his drinking. But, finally his wife decided there was nothing else she could do to help her son and his children must make a life of their own.

On Jan. 1, 1973, Joe finally admitted to himself that he was an alcoholic and decided he would stop drinking by himself. "That was almost a joke," he said. "I still maintain that I began to experience delirium tremens (DTs) and hallucinations. Joe felt he was becoming mentally ill and needed help. He went to the newly opened State Hospital for identification and diagnosis (SID) unit in Franklin, but "I got frantic and I found a sense of direction. And while his life improved, he still drank. He was denied all alcohol, he was given two children.

For the next few years, he drifted aimlessly from job to job, looking only for compensation who would join him in his drinking.
