tobacco buyers had adjudged the Nicholas county tobacco the best in the state, our local farmers are not realizing any better profit than other farmers. He gave the over-abundance of tobacco produced this year as a possible cause.

Nofsinger said the average government support price is \$96.50 per hundred weight. He explained that this is an average—every farmer cannot sell his crop to the government at this price—the support price, too, is according to the grade of tobacco. Good crops will bring more and bad crops less. When asked what it costs to harvest a crop of tobacco, Nofsinger replied that statistics say about \$93.00

Paris, \$106.99; Winchester, \$106.53 and Lexington \$106.70.

Gross sales for the week ending Dec. 11 totaled 107,127,135 pounds and averaged \$102.00 per hundred—down \$4.85 from the week before. The season figure stands at 286,797,489 pounds averaging \$115.96. For the same period last year (12 sales days) 413,846,244 pounds returned \$115.96.

Declines in grade averages amounted to mainly \$1 to \$4 per hundred, and occurred for practically all marketings. The extreme range in averages was \$115 per hundred for Choice Tan Leaf to \$50 for tobacco designated as no-grade.

This week's marketings consisted of a smaller percentage of fine and good grades while more low and nondescript appeared for sale. From a color standpoint, last year was auctioned with a similar increase in green and greenish.
