Dr. Shannon heads Municipal Task Force

During the summer months, the Task Force for Municipal Statutes Revision will seek to clarify the existing laws relating to cities by interviewing local municipal officials throughout the Commonwealth. Funded by a grant from state planning monies, the Task Force will contact officials of your city to determine their major problems with municipal laws and seek methods of solving them through statutory deletion, revision, and consolidation. The efforts of the interns will also help to establish a "pipe-line" from the municipalities to state government, further improving the communication routes recently opened by the Interim Committee on Cities. This committee, chaired by Rep. William Kenton of Fayette county, has held meetings in all sectors of the Commonwealth, listening to testimonies of city officials on their home ground.

The Task Force consists of 60 senior law students, or student interns, selected equally from the state's three law schools (University of Louisville, Chase and University of Kentucky). There will be two student assistants stationed at each school to help the faculty advisors administer the program and edit the research reports of each intern. The faculty advisors are: University of Louisville, Prof. William Biggs; Chase, Prof. Wilfrid Schroder; and University of Kentucky, Prof. Eugene Mooney. The over-all director of the Task Force is Dr. Jasper Shannon, of Paris, a Nicholas county native, and retired professor of political science at University of Kentucky. the director will be assisted administratively by Ms. Judy Richardson of the University of Louisville.

Initial contact with the local officials will be the completion of a broad-based questionnaire that will provide a data base of information on our cities not currently available to legislators and state government officials. Subsequent visits to the municipalities will be made as needed to further define and clarify the problems encountered by local officials in dealing with the mass of municipal statutes. Hailed by Governor Carroll for its potential benefit to municipalities, it is hoped that the Task Force will provide the 1976 General Assembly with a meaningful list of legislative priorities to improve the veryday functioning of Kentucky cities.

Just What Is A FATHER?

..A FATHER is a thing that is forced to endure childbirth without anesthetic.

..A FATHER is a thing that growls when he feels good and laughs when scared half to death.

..A FATHER never feels worthy of the worship in a child's eyes. He's never quite the hero his daughter thinks, never quite the man his son believes him to be, and this worries him...sometimes. So he works too hard to try to smooth the rough places in the road for those of his own to follow him.

..A FATHER is a thing that gives daughters away to other men who aren't nearly good enough. ..so he can have grandchildren smarter than anyone's.

..A FATHER is a thing that gets very angry when the school grades aren't as good as he thinks they should be. ..so he scolds, though sometimes he knows it isn't always the student's fault.
