Lowe's Low Prices

Now More Necessary Than Ever

Long before the federal government ever thought of price controls, we at Lowe's had a price control program of our own — called Lowe's Low Prices. The idea was, and is, to hold prices at the lowest possible level on brand-name merchandise. And it has worked well. Lowe's has grown, but our profit after taxes has always been less than 4¢ per dollar of sales.

Of course, these days, there's always a little bit of bad news, too — and "inflation" is the name for it! Prices on labor and materials are soaring higher and higher every day. But, the bright spot is that our policy at Lowe's is still to maintain our prices at the lowest possible level. As an example, the low prices you see in this ad are guaranteed for the next ten days.

20 Cubic Foot Chest Freezer

Holiday.

These days, having a freezer is just about a necessity! With food prices raising regularly, it helps to be able to shop when certain foods are on sale and freeze them until needed. A freezer is also a great help to the working homemaker — she can cook entire meals ahead of time and keep them until she's ready to serve them. This 20 cu. ft. model features fiberglass walls and foam bottom insulation . . . spring-loaded hinges on the lid . . . baked enamel finish . . . a power interruption light . . . handy storage basket . . . and Cold Control for a steady, even temperature. #50809.

3½" Fiberglass Insulation

Insulation is a real investment in your home. It can pay for itself in lower heating and cooling costs in just a short time. For example, if you live in an area where temperatures average 45 degrees or less, you can recover the total cost of a complete insulation job in as little as 2 or 3 years! 3½" insulation is ideal for walls, but may also be used for floors and ceilings. It has a vapor resistant kraft facing and a one-inch stapling flange for quick and easy installation. An efficient sound absorber, too. #12341.

TROUBLE SHOOTING TEAM TO COMPETE IN CONTEST

Two students at Harrison County Area Vocational Education Center are going looking for trouble and they will find plenty of it in the State Championship Plymouth Trouble Shooting contest Friday, May 9 at Capital Plaza Complex, Frankfort, Ky.

Mike Faulconer, Bourbon County High School District and Terry Plummer, Pendleton County High School District will represent their vocational school in the event, according to Jim Plummer Sr., Auto Shop Instructor.

Teams compete first on a state level, with the winners continuing on to the National Finals at Detroit June 16, 17 and 18.

NO DEFICIENCY PAYMENT

Secretary of Agriculture, Earl L. Butz, announced that there will be no deficiency payment made for 1974-crop corn and sorghum. As provided by the Agriculture and Consumer Protection Act of 1973, deficiency payments shall be made to producers when the national weighted average price received by farmers for the first five months of the marketing year—October-February for corn and sorghum—is less than the established "target" prices for these crops.

The national weighted average price received by producers for the first five months of the 1974 marketing year was $2.22 per bushel for corn and $3.03 per bushel ($5.41 per hundredweight) for sorghum. Since this is in excess of the target prices of $1.38 for corn and $1.31 for sorghum, there will be no deficiency payments.

Right of way acquired for road construction

Apparently the four-laning of the Lexington Road is moving along as another bit of activity has been reported.

The State Department of Transportation has paid damages to the Lexington Country Club amounting to more than $200,000.

The Lexington Country Club is giving up a portion of its land along the highway frontage that will be incorporated in the new four-lane road that will link Lexington and Paris.

The payment to the Country Club is the first major step of the Gov. Carroll administration to press for the construction of the roadway, which has been under planning scrutiny for some time. The acquisition of the rights-of-way has been launched, as is indicated by the country club action.

The proposal is to start construction of the new thoroughfare from the Lexington side, moving toward Paris, completing the work in Fayette county first.

Huddleson praises Kentucky farmers

WASHINGTON—Senator Walter Dee Huddleston used the recent Food Day observances to praise the work of Kentucky's farmers, who he called among the most productive in the nation.

In doing so, Huddleston cited the following facts:

—In 1974, Kentucky farmers harvested 95.2 million bushels of corn from 1.12 million acres of land. That was an increase over 1973 totals of 83.24 million bushels on 968,000 acres of land.

—During the same three year period, Kentucky farmers increased their soybean production from 24.9 million bushels to 29.25 million bushels—a 17 percent increase.

—Kentucky farmers produced 7 million bushels of wheat in 1972, and increased that total to 12.2 million bushels in 1974.

"These statistics are an indication of the determination of the over 100,000 farm families of Kentucky to meet the food challenge for the 1970s," Huddleston added. "I would like to commend the farmers of Kentucky as well as the farmers of the nation for their efforts to increase food supplies."

NEXT WEEK'S HOROSCOPE

By Clay R. Pollan

Note planetary ruler of your birth symbol

FOR WEEK BEGINNING MONDAY, MAY 5, 1975

★ **If your birthday occurs this week . . .**

. . . you have brilliance. You are capable of intense concentration. Make sure you use this capability. Don't allow yourself to become a slave to plodding routine. Discipline yourself to finish one thing before you begin another. Hitch your wagon to a star, and don't forget to tie the rope.

♈ Aries | Mar. 21 - Apr. 19 | Pluto ♇

Circumstances you hadn't envisaged will come into play during this period. Don't count too much on things going according to plan. You may be disappointed over the results of an application, or a letter or message may cause a "let-down." Keep well clear of people who have a reputation as neurotic gossips.

♉ Taurus | Apr. 20 - May 20 | Venus ♀

Stress is on new starts and added independence. Social activity will increase. You'll get around more and see new people. Contacts you make now will prove meaningful in the near future. Something unforeseen happens. Brace yourself and be prepared. An exciting offer may drop into your lap.

♊ Gemini | May 21 - June 20 | Mercury ☿

Although there're no indications of financial hardship this week, very little "easy money" will come your way. Review accounts. Get a clear picture of your assets. Welcome opportunity for change, travel, variety. If a degree of opposition arises, you can overcome it by a forceful presentation of facts.

♋ Cancer | June 21 - July 22 | Moon ☾

Try and gather your thoughts together and center attention on making necessary changes in your surroundings. Study of astrology and related subjects could enable you to see the greater picture. Some of your unique abilities may receive wider recognition. Put thoughts on paper. Emphasize communication.

♌ Leo | July 23 - Aug. 22 | Sun ☉

This is bound to be an expensive week. There's a danger that you'll indulge in extravagant impulse buying which lands you "in the red." You can expect restrictions. You can also expect to overcome them. Respect powerful friends who favor you. Be appreciative. It's your turn to treat.

♍ Virgo | Aug. 23 - Sept. 22 | Mercury ☿

The main need is to have patience and persistence in pushing plans and projects now on hand. Beware of people who will dodge work and responsibility. Don't let yourself be bogged down. Finish what you start. Refuse to be discouraged by the unfair claims of a competitor. Forge ahead!

♎ Libra | Sept. 23 - Oct. 22 | Venus ♀

Be ready for surprises that can mean a world of improvement. Rushing is the one thing that can defeat your purposes. Slow down, be sure to eat slowly, and not tax your digestive tract. Stress independence without being arrogant. A Leo individual will inspire you and will cooperate in every way.

♏ Scorpio | Oct. 23 - Nov. 21 | Mars ♂

An old romantic interest may turn up again. You won't be sure just what your feelings are. Beware disclosing your innermost thoughts. A dream could give you guidance, if interpreted correctly. Do things in style if you plan to make a romantic conquest. Guard against a tendency to argue and bicker.

♐ Sagittarius | Nov. 22 - Dec. 21 | Jupiter ♃

Be determined. Don't give up! Try again if you're stymied the first time. Rid your life of the small things that hold you back. Don't waste time with idlers or let yourself be imposed upon. Watch your behavior towards someone in a position of authority. An unusual invitation is a real possibility.

♑ Capricorn | Dec. 22 - Jan. 19 | Saturn ♄

You may be very depressed and gloomy at times this week. The awful things you worry about won't come to pass. Pull yourself up by your own bootstraps and get your "second wind." Secret talks may mean a change in your finances—for the better. Sit down and concentrate. You'll win eventually.

♒ Aquarius | Jan. 20 - Feb. 18 | Uranus ♅

A fine, rewarding week. Your charm is vivid, and your efforts will be appreciated. Do your duty forward all who have a right to expect aid from you. Adjustments may have to be made in current projects. Any effort contributing to the beauty of your home will be a success. No problems on home front.

♓ Pisces | Feb. 19 - Mar. 20 | Neptune ♆

There are important things to do this week and important talk to take part in. Wisdom is needed and you have it. It's a time of achievement in almost anything you attempt. A dip into the past, a visit to old haunts, provides happy, nostalgic memories. Excellent time for tackling repair jobs—and saving money.
