Head Start 10 years old; open house held locally

Head Start throughout the nation is celebrating its 10th birthday during 1975. Over 560,000 children were enrolled in the first summer's program 10 years ago. In the meantime, nearly five and a half million children have been through the program or are currently enrolled. For 10 years Project Head Start has played a major role in focusing the attention of the nation on the importance of early childhood development. It has served as a model for many other programs. It has pioneered in the delivery of health services; it has had a major impact on community efforts on behalf of low-income families and perhaps above all it has demonstrated the vital importance that parents play in the early years of their children's development. Much tribute should be given to the volunteer aide, usually a parent, who serves without pay. One serves each

last in each class room. Last year the handicapped children were enrolled with an aide specifically trained for this work. Harry Campbell from Headquarters and the City School located now behind the Elementary School. These are the nicest rooms anywhere. Mrs. Reid and Lois Fuller are at the helm in one unit—Adeline Shepherd and Helen Soley in the other. Margaret Hunter serves as Social Service aide and Parent Coordinator. So we too celebrated Head Start's 10th birthday with "open house" Wednesday, May 14. We appreciate your coming to see our lovely rooms and especially seeing our 38 wide awake youngsters.
