Workman's comp commission reaches agreement

FRANKFORT—A 17-member commission appointed by Gov. Julian Carroll to study Kentucky's workmen's compensation program has tentatively agreed to three recommendations designed to ease what some persons have termed a "crisis" situation in the workman's compensation insurance market.

More further said he would like some assurance that insurance premiums would be rolled back like the recommendations were carried out. He compared the workman's compensation issue to no-fault car insurance legislation passed by the 1974 legislature, saying that a first year 10 per cent rate reduction mandated by the bill was later offset by large rate increases for car insurance.

Sen. Kenney Friend, D-Pikeville, commission co-chairman, said a 12 per cent reduction could result from the commission's recommendations.

Sen. Hughes said that an in-depth look into workman's compensation was

UK calendar of events

- Nov. 29, Bicentennial Postcard Exhibit, display of postcards from across the nation, Barnhart Gallery (Room 224, Reynolds Building, 672 South Broadway), opening reception 7-9 p.m. Gallery hours 12-5 p.m., Monday-9:45 p.m. Free admission. Exhibit runs thru Dec. 18.

"We try to remember in the print media that the printed word represents the 'only' free press in this nation. Broadcast media are licensed by the Federal Communication Commission and were the day when newspapers had to go to Washington, D.C. to get licenses renewed periodically."

—Bill Boykin, president NAM, Inc., and executive director Inland Daily Press Association

Banking Service that fits your needs

is more important than ever... in today's economic climate

At all times... in prosperity or recession or in between... the key to sound management of your personal and business affairs is a strong, sound and concerned bank at your service.

EKU reports another record enrollment

RICHMOND—Contrary to the national trend, Eastern Kentucky University has recorded another record high enrollment for the 1976 fall semester, EKU President Dr. J.C. Powell, has announced.

The fall enrollment, slightly higher than the previous high record of last fall, is 15,510. The 1975 fall enrollment was 14,820.

The leadout represents an increase of 5.6 per cent over last year's enrollment. Nationally, colleges and universities are reporting decreases in enrollments this fall of about 10 per cent.

The full-time equivalent enrollment (FTE) is 11,622, compared to 11,502 recorded last year. This represents an increase of 130 students, or 1.1 per cent.

For the second consecutive year, the women outnumber the men at Eastern. There are 6,976 female students enrolled compared to 6,546 males. Last year's difference was 190 females over males, compared with the 42 female dominance this year.

While the first-time, full-time freshmen represent a slight increase, there are fewer part-time freshmen enrolled this year.

Local Shrine to close Bicentennial celebration on Dec. 12 feast day

The Shrine of Our Lady of Guadalupe Catholic Church here will close its Bicentennial celebration with a special Latin-English Mass of Thanksgiving on Dec. 12, the Feast of Our Lady of Guadalupe, at 10 a.m., which will be followed by a parish dinner and a slide presentation of the recent dedication ceremonies of the new Shrine of Our Lady of Guadalupe in Mexico City.

An afternoon slide program with Rosary and Benediction will also be presented for the public.

Although the church was named a Shrine in 1967, the parish dates back to the early 1850s. On July 4th of this year the parish celebrated a combined 120th Anniversary of the first Mass in Nicholas county and the Bicentennial of our country. To tie the two events together the Anniversary-Bicentennial Mass was held at the restored log cabin of Daniel Boone on Forest Retreat Farm, his last home in Kentucky, where he lived in Nicholas county from 1792 to 1799, near the site of Boone's involvement with the last remaining Indian Revolutionary War at Blue Licks where his son Israel was killed, and because

Bicentennial celebration Father Herma B. Kamlage, pastor, led a pilgrimage to the dedication of the new Mexican Shrine, in conjunction with the Most Reverend Richard H. Ackerman, Bishop of Covington, in 1962. Prior to this time the church had been named in honor of St. John. The name and status of the church was changed because of Bishop Ackerman's great devotion to Our Lady of Guadalupe and because the Carlisle mission parish was falling financially. Too few Catholics and the necessity of building a new Shrine church were and are the problem. An appeal drive to raise funds for a new Shrine is presently underway. Anyone wishing to make a donation may do so by contacting Father Kamlage, P.O. Box 168, Carlisle, Ky. 40311.

Father Kamlage has been asked to attend a pilgrimage to Our Lady's Shrine in Mexico City by the Cincinnati Marian Center the first week of May, 1977. Should you care to go please call the Provident Travel Service (613-821-4000) for information. The cost of the pilgrimage will be \$890 based on 40 persons leaving from Cincinnati, Ohio. Jan. 7 has been set as the reservation deadline.

The Carlisle Shrine was established by the Most Reverend Richard H. Ackerman, Bishop of Covington, in 1962. Prior to this time the church had been named in honor of St. John. The name and status of the church was changed because of Bishop Ackerman's great devotion to Our Lady of Guadalupe and because the Carlisle mission parish was falling financially. Too few Catholics and the necessity of building a new Shrine church were and are the problem. An appeal drive to raise funds for a new Shrine is presently underway. Anyone wishing to make a donation may do so by contacting Father Kamlage, P.O. Box 168, Carlisle, Ky. 40311.

Participating in the Bicentennial Mass and 170th anniversary of the first Mass in Nicholas county on July 4 are Michelle Kamper, Patrick Kamper, the celebrant Father Herma B. Kamlage, Farred Koury and Kelli Robinson. The basket of produce, the birthday cake and the tobacco leaf represent the congregation's gifts to God.

Apply Lime, Phosphate, Potash This Winter

Several fertilizer jobs can be taken care of between now and spring so that when spring planting time gets here, you won't be bothered with getting these done then. Hayfields can be limed and topdressed with phosphate and potash anytime between now and early spring that you can get machinery over the fields. Lime, phosphate and potash can also be spread on cornfields and pastures... particularly those you will be renovating in early spring.

You do need some information before though... soil test results from fields to be fertilized and limed. If you haven't taken soil samples already, this is a good time to get them and have them sent in for analysis. With the results you can then decide if you need lime or fertilizer and if so, how much you need.

Have Soils Tested This Winter

Last year was a different year for soil sampling than anytime during the past. Nearly 20,000 samples were sent to the University of Kentucky soil testing laboratory at Lexington. This was an increase of about 20,000 more samples than in any other year. Most of these samples were sent to the lab during the February-March period, resulting in a severe overload of the laboratory capacity. In fact, samples came in as

fast as 1,500 per day, and with a testing capacity of 500 samples per day, a backlog in getting results soon developed. Since that time the University of Kentucky soil testing lab capacity has been increased to handle 800 samples per day, which should result in faster service.

Even with this increased lab capacity, the best way to avoid undue delays is to send in your soil samples now. By sampling fields now and sending them in for testing, your results will be back well ahead of your field operations for next spring.

Be sure to do a good thorough job in sampling your soil, because in the testing procedure only a few ounces of soil is actually used to represent all the hundreds of thousands of tons of soil in a field. If you need advice on how to take a good sample or if you have any other questions about soil tests, call or come by the extension office.

The soil testing service is operated and available to all without regard to race, color, sex or national origin.

Stamler elected AIK director

William K. Stamler, president of the W. B. Stamler Corporation, Millersburg, was elected to a three year term on the board of directors of Associated Industries of Kentucky at a meeting in Louisville this month. AIK is Kentucky's largest association of employers.

Stamler became president of his company in 1968 after the death of his father who started the corporation. A graduate of Paris High School and the University of the South in Sewanee, Tenn., he served in the United States Air Force from 1956 to 1960. He remains a Major in the Air Force Reserve.

He is a director of the Peoples Deposit Bank, former president of the Bourbon County Chamber of Commerce, a director of the Bourbon County YM and YWCA and trustee of the Millersburg Military Institute.
