

# SANTA LETTERS

Dear Santa, I am a little boy, 2 years old. I don't think I'm very good this year but then I'm little and I have a lot to learn. I have a big sister and sometimes they can be very difficult to get along with. If I will bring me these few things I ask for, I will try very hard to be good next year. I would like a P-P dump truck, a P-P cash register and some golf clubs so that I can play with my Dad next summer. Don't forget my big sister, even though she gives me a hard time, I love her and she can be real sweet sometimes.

Love,  
Aaron,  
P.S. And don't forget my cousin, Ryan. He lives in Nicholasville.

Dear Santa, My name is Gretchen. I am 6 years old. I've been a pretty good girl this year and I work very hard at kindergarten. I would like for you to bring me a Lite-Brite, a Holly Hobbie light up desk, a calculator and a chalkboard. I've had a hard time deciding what kind of doll I want, but I think I would like Happy Birthday Tender Love. Oh Santa, could you bring me a big lock for my door, one that is guaranteed to keep little brothers out of your room? Don't forget Aaron and all my friends at kindergarten. I will leave you a snack under the Christmas tree. That's if my little brother doesn't tear it down.

Love,  
Gretchen Judge

Dear Santa, I am a little boy 7 years old and in the first grade. I want you to bring me a dump truck, crane, loader, bulldozer. I will leave you some milk and cookies under the tree. Don't forget Mom and Dad and Marcella. My neighbor wrote this for me. I love you.

Dear Santa, My name is Derrick. I am 3 years old. I have tried to be good, but that is hard for a little boy to do. Please bring me a Joey Doll, a putt-putt speechy, a truck with animals, a banjo, and a saw, and anything else you think I can use. Don't forget my 8 year old sister Sheila. She has been good this year. She would like to have a Baby Ann Doll, Jaws Game, Intermex Phones, Jewel box, Ants in the Pants Game, anything else you think she could use. We will leave you some milk and cookies under the tree.

Love ya,  
Derrick and Sheila Livingston

Dear Santa, Our names are Rodney, Heather and Robbie Hughes. We've been good this year or at least our Mother says we have been. I want a train set, Dallas cowboy coat, hat and mittens and anything else you want to bring. Heather wants a Hush-Little-Baby, stroller and stove. Robbie is little so just bring him anything he can chew on safely! We'll have something for you to eat when you get to our house. Oh, we'll be at Mama and Papa's in Virginia. But you know where that is, don't you?

Bye now,  
Rodney, Heather and Robbie Hughes

Dear Santa, I am a little boy two years old and I would like a big Green Tractor that I can ride on, candy and anything else you would like to bring me. Santa, I'm like most two year old boys who often like to see how things are made and so I'm often in trouble but Santa I will try to do better next year.

Please remember my seven little cousins and all children everywhere. Help us to remember that this is Jesus' birthday and to be thankful. I love you.

Your boy,  
Brian Livingston

Dear Santa, Our names are Gina, Johnny, Janella and Alicia Sibert. Our mommy is writing this for us. Gina is 9 years old and in the fourth grade. She would like to have a Thumbelina doll, a calculator, a Holly Hobbie Oven with cake and cookie mixes, and a big chalkboard. Johnny is 8 years old and in the third grade. He would like to have a U.S. Enterprise, a Star Trek helmet and utility belt, a Spider-Man KIL and a Bat Wagon with Batman and Robin. Janella is 7 years old and she is really excited about Hello this year. She has asked for a Hush Little Baby, an iron and ironing board, a Talking telephone, a Marching Mickey Mouse, and a broom and a mop. Alicia is only 3 months old so she doesn't know too much about Christmas, but please bring her some musical animals and a Fisher-Price mobile for her bed.

We have all tried to be good but we forget sometimes. Thank you for everything that you brought us last Christmas. We will leave you hot chocolate and cookies under the tree and hay on the roof for the reindeer. Don't forget all of the other little boys and girls all over the world.

Your little boy,  
David

**Music, stories abound at school**

As a means of brightening up students' school days, and lessening discipline problems, the Phase C [Third] teachers initiated a program of selective activities. The Board of Education voted and approved this program. Music [dancing, singing, music appreciation], Crafts, Indoor Games, Story Hour [puppets, film strips, and listening], and Fun Sheets are the activities from which the students may choose to be taken on Monday, Wednesday and Friday for one period during the day. This program, under the supervision of Mrs. Donna Workman, Phase C Coordinator, has been functioning since November and will continue to the end of the school year. Left photo shows Mrs. Beverly Woods giving instruction in drama. In top photo children are learning to appreciate different types of music.—Dunlap photo.

**Let there be heat!**

So the All Knowing Ones declared, "Let there be Heat!" And there was heat. Now, if you believe that, you're in trouble.

Why is it that some people think American technology can solve all the problems of solar generating stations that we don't have, but cannot solve the problems of nuclear generating stations that we do have? Why is it that some people want all of the comforts and benefits of an electrical age but think they can have those benefits without more generating stations? Why is it that some people demand unlimited electric energy but oppose building hydro-power, nuclear, or coal-fired generating stations needed to produce that energy?

Does anyone really think that somebody can call out, "Shazam!" and come up with electric energy? When anyone tells you we can continue our present life styles without producing more energy, begin asking "how?" Otherwise we will have a chance to learn how it was a few generations ago with unemployment, candles and cold cabins.

While you're thinking about that question, try to avoid wasting energy. Saving money makes sense. Your co-op can tell you how.
