## 4th of July sabotage

This 4th of July should be the greatest celebration in the history of the United States. Americans will have an opportunity to celebrate 200 years of independence—an extraordinary achievement in the annals of man. As a result, plans are underway to sabotage the celebration.

The Senate subcommittee states in its report that the "People's Bicentennial Commission is a far-left organization whose true views are far closer to those of the Marxists than they are to our founding fathers."

Jeremy Rifkin, who launched the PBC and serves as its principal spokesman, is described by congressional leaders as a Communist Party member who played a prominent role in the anti-Vietnam war movement, serving as national coordinator for Citizens Organization of Inquiry on U.S. War Crimes in Vietnam.

The PBC has set a target of mobilizing 50,000 people for a mass demonstration on July 4th in Washington, D.C. The demonstrators will march on the Capitol. Advertiser speakers include Phil Foner, arrested this July by the Senate subcommittee, as a Marxist historian long associated with the Communist Party.

What can be done to prevent these and similar groups from pulling the wool over the eyes of the American people? It is difficult to determine. Recent court rulings make it difficult for law enforcement agencies to prevent rowdy, disruptive demonstrations.

It is possible that the PBC intends to prevent the legitimate celebration of America's Independence Day celebrations. Really, good citizens can turn out in large numbers to participate in the authentic Bicentennial programs planned for Washington, Philadelphia, and other cities throughout the nation.

FRANKFORT—Some property owners in every taxing district in Kentucky can expect to pay more in property taxes this year than last because of Department for final approval. If the property owner doesn't get what he wants, he can sue.

At the same time some are getting to be paying more in taxes, there are two other classes that may expect to pay less, Carpenter said. The Property Tax Valuation Administrators are implementing the special appraisal adjustment.

That's one of the good reasons why property raises more, on communities where the folks who live in them, trade with each other.

# Three more Babe Ruth games before playoffs

Tuesday night's Babe Ruth Baseball started with a game between the Senators and the Dodgers. Mark Rudek pitched the game for the Senators against Tim Lincecum pitching for the Dodgers.

The Senators' most senior player, Barry Bretz, was the winning pitcher. The A's made seven errors while the Dodgers made none.

# Special Bicentennial date permitted on savings bonds bought in July

As a special Bicentennial commemoration, the Department of the Treasury will allow Series E Savings Bonds issuing agents—most commercial banks and many savings and loan associations—to provide over-the-counter purchasers with a special July 4, 1978, validation date for all Bicentennial-design Series E Bonds bought during the month of July, according to Roger Wornack, chairman in Nicholas county. Wornack has been local chair-

man since 1943. "Bonds carrying the date of our nation's 200th birthday make marvelous souvenirs—and they will grow in value with the years they are held," he said.

Each financial institution that issues Series E Bonds over-the-counter may determine whether or not it will participate in this commemoration, and determine which Bonds issued during July will be eligible for the July 4, 1978, validation date.

For record-keeping purposes, agents will be required to maintain a record of the exact date of issue for each Bond specially dated. The July 4 dating applies only to the agent's validation stamp, not to the issue date of the Bond which is expressed only in month and year—July 1978—in this case. The Bonds will bear interest from July 1978, regardless of the validation date.
