NEXT WEEK'S HOROSCOPE

By Clare R. Pollan

FOR WEEK BEGINNING MONDAY, MAY 24, 1976
If your birthday occurs this week . . .
you are moody and temperamental. Under a gay exterior, you hide a world of woe and try to smile even though your heart is breaking.

Aries Mar. 21 - Apr. 19 Pluto ♇
Do not be aloof when around someone about whom you feel emotional. Let feelings be known. Love can have its say and no harm can be done! Friends may spring surprises, change plans or forget promises. Don't make sudden changes without consultation.

Taurus Apr. 20 - May 20 Venus ♀
Private and home matters are accented, especially affection. Good news conveyed by letter may bring good cheer. A close companion is likely to inspire you with his/her enthusiasm. If traveling, avoid experimenting. Keep to usual and well-known routes. Be generous.

Gemini May 21 - June 20 Mercury ☿
Observe all safety rules and laws of decorum. Take advantage of the goodwill which fellow workers show you. New cash reserves seem to become available. Make no changes without first getting expert advice. Your talent for leadership will bring an opportunity.

Cancer June 21 - July 22 Moon ☾
First part of week will be slightly slack but your affairs should start to move at a reasonable pace onwards. The romantic aura is present. A secret is shared. Be discreet. Everybody may not agree with your money proposals. You can stretch money farther than usual. Good news comes.

Leo July 23 - Aug. 22 Sun ☉
This week should mark a minor turning point for the better financially. You'll manage to settle commitments which have bothered you. An adjustment in domestic area is accented. Check leases, agreements and tax requirements. Insist on greater cooperation.

Virgo Aug. 23 - Sept. 22 Mercury ☿
Allow for the possibility of developments which involve you in travel. Aquarius and Pisces persons are likely to be in picture. Don't take business worries home. A female acquaintance is grateful for advice. Date at a fashionable rendezvous is indicated. Be careful.

Libra Sept. 23 - Oct. 22 Venus ♀
Don't permit certain people to intrude upon your privacy. Let others know you have a life of your own to live and that you intend to live it. Favorable time for starting or developing new business associations. You'll learn plenty about someone now. Affairs need attention.

Scorpio Oct. 23 - Nov. 21 Mars ♂
You will be wise to follow practical advice now. Heed what goes on and listen to what is said. You will learn some valuable facts. You'll find elderly persons rather difficult now. Make the most of your appeal when meeting new friends. Be smart. Be wary of opposition.

Sagittarius Nov. 22 - Dec. 21 Jupiter ♃
Do not be scornful of the ways of others. You have foolish faults as everyone has, so resist about it all. Accent is on security, home and property. Protect your own interests. Leave nothing to chance. Romance, marriage, partnership and public relations are also emphasized.

Capricorn Dec. 22 - Jan. 19 Saturn ♄
Practical issues command attention this week, especially car repairs and home breakdowns. Skillful handling of in laws is essential to happiness. Play it cool in romantic matters. Don't force issues. Optimism formed now may have to be changed. Be conservative.

Aquarius Jan. 20 - Feb. 18 Uranus ♅
This is a good week for wardrobe shopping and getting summer togs into shape. Be careful of colors you choose and avoid breakish footwear. Go ahead if thinking of buying furnishings or appliances on credit. Don't permit another's work to have priority. Your needs come first.

Pisces Feb. 19 - Mar. 20 Neptune ♆
Moon signs coincide now with your moods and magnetism. You intrigue people and they become curious about you. Your popularity rating goes up and this can be exploited to your advantage. There's good chance to benefit from a money deal.

The meeting opened with a luncheon with NABW chairman, Barbara Anderson, vice president of Central Bank, Lexington, presiding.

MAGICWORD

HOW TO PLAY: Read the list of words. Look at the puzzle. You'll find these words in all directions — horizontally, vertically, diagonally, backwards. Draw a circle around each letter of a word found in the puzzle then erase it off list. Circling it will show a letter has been used but will leave it visible should it also form part of another word. Find the big words first. When letters of all listed words are circled, you'll have the given number of letters left over. They'll spell out your MAGICWORD.

IT'S MAGIC! Sol.: 8 letters

CLUES

53. Follow the primrose path
53. "— Deum"

Answer to puzzle 5/17/76

The Happy Gardener

Q: Which tomatoes grow compactly and do not require staking?

A.: The indeterminate varieties are those which will grow as high as six or seven feet and these need extensive staking for support. Most of the patio tomato types are compact in growth and don't require stakes; these produce small cherry tomatoes. For full-sized tomatoes that are not indeterminate vines requiring staking, Springwet and Redpak are two varieties I would recommend.

• • •

Q.: Can any vegetables be grown in a yard surrounded by mature shade trees?

A.: The problem here is not simply one of inadequate sun exposure (all the fruiting vegetables require six to eight hours of direct sunlight), but it is also a problem of the overbearing tree roots which can rob struggling new vegetable plants of the moisture and nutrients they require from the soil. One might try lettuce, spinach or one of the other leafy vegetables and perhaps some herbs in a yard with such conditions, but be sure to plant them in the brightest spots and take extra care to see that they are watered and fertilized well.

• • •

Q.: How should one encourage a three-year-old healthy-growing hibiscus bloom?

A.: One way is to work some bonemeal into the soil at the base of the plant in summer, give it as much sunlight as possible and keep it very well watered. In winter, allow it adequate rest during its dormant period — let the soil dry out between waterings and make sure the surrounding temperatures are quite cool (50 to 55 degrees F.). Repot hibiscus in the spring if it starts to show lots of new growth.

Would You Believe...

Russians studying the American language outnumber Americans studying the Russian language by about seven to one.

Saltwell

Mr. and Mrs. Billy Knippenberg and family enjoyed a family dinner at the home of Mr. and Mrs. Emmett Dennis and family of North Middletown.

Mr. and Mrs. James Allen Mitchelltree of Mumfordsville, Tenn. spent a few days the past week with Mr. and Mrs. Taylor Mitchelltree. Mr. and Mrs. John Mitchelltree of Lexington were also Sunday visitors.

Life of Christ

The Youth Fellowship of the Carlisle United Methodist Church will present "The Life of Christ" in shadow form on Friday, May 23 at 7:30 p.m. The drama, first presented by youth on Easter Sunday, is being repeated by request. The story highlights the life of Christ from his birth to his ascension into heaven.

Miss Cay Pruitt, youth worker, is the director and will be assisted by Carol Chamberlin and Cheryl Lowe.

ELECTRICITY GENERATES JOBS FOR YOUR TODAYS & THEIR TOMORROWS.

Jobs for this generation. More jobs for the next. Everyone of them depending on a reliable supply of electricity. Imagine your job with electricity off for a day. Or an hour. Or just frequently. Or a new plant being built without assurance of a reliable source of electric power.

To maintain jobs for today's workers, a dependable supply of electricity for industrial plants and commercial establishments is vital.

To create jobs for tomorrow's workers requires attracting new industry and encouraging our present industries to expand. And our assurance that more electricity will be available when needed. And that requires huge investments in generation and transmission facilities.

Job security for you. For your children. For their children. The one essential is ample, reliable electric power. That's our job . . . and we do our best to deliver that electric power.

Electricity . . . use it wisely.

NOTICE OF PUBLIC MEETING FOR LOCAL WASTEWATER FACILITIES PLANNING

Notice is hereby given that a Public Meeting will be held at the Nicholas County Courthouse in Carlisle, Kentucky, at 7:30 p.m. on May 24, 1976 to afford the opportunity for individuals to be heard on the economic and social effects of the location, design, and environmental impact of wastewater treatment facilities for the town of Carlisle and adjacent areas.

A brief slide presentation will be made to show the general format of a wastewater facilities plan that is currently being prepared for the City of Carlisle. Some of the topics that are to be addressed in the facilities plan are water quality objectives, pollution sources, existing waste treatment systems, environmental inventory, future waste loads and possible alternatives for a future wastewater treatment system.

All persons interested in the planning, design, location, and construction of the wastewater treatment facilities are invited to appear and express their views. Written statements may be submitted prior to or at the time of the meeting. 5-13-2tchg.

POSTED

All persons are hereby notified not to trespass, fish, hunt, trap or shoot upon the land of the undersigned. Any person caught trespassing in violation of this notice will be reported to the Sheriff and prosecuted to the fullest extent of the law. It is necessary that we take this step to protect our property and wildlife.

Lamb show is May 26

The 1976 Central Kentucky Lamb Show and Sale is to be held at Paris Stockyards in Paris, on Wednesday, May 26, according to Kentucky Commissioner of Agriculture Thomas O. (Tom) Harris.

Lambs will be received, weighed, and entered in the show, beginning at 7 a.m. on the day of the show, and all entries should be in place on the grounds no later than 10 a.m. Official judging of entries is scheduled to begin at 10 a.m. with classes being offered for novice, youth, and adult exhibitors. A barbecue lamb luncheon has been set for 12:30 p.m., with all lambs to sell at auction immediately following the meal.

Dr. Don Ely, Dr. Jim Kemp, and Dr. Mack Whitteker, staff members of the Animal Science Department, University of Kentucky, will serve as official judges for all pen classes at this year's show. Single classes will be placed by Dr. Monty Chappell, State Extension Sheep Specialist.

MEN—WOMEN

We may not have a draft, but we still have a need.

We need good people to serve in the U.S. Army. Army life is not for everyone. You get up early. You work hard all day. And you're asked to give 3 or 4 years to your Country.

We won't change that.

But, the things we have changed will make the Army more attractive to the type of people we're looking for. We have better educational opportunities. Better jobs. Better pay. And better travel choices.

Yet, we believe the most important benefits to be gained from the Army are still maturity and self-confidence. Things that last long after an enlistment's over.

Call SGT CARL TOOMEY Collect: (606) 987-6812

Join the people who've joined the Army.

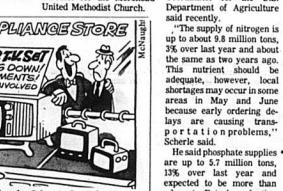
Local rescue squad attends seminar

Russell Bell, Nicholas County Civil Defense Director; Bobby Faye, Bobby Barnett, George Bowles, W.J. Alexander and Larry Berry, members of the Carlisle Rescue Association of Nicholas county attended the rescue training exercise and seminar held Saturday, May 15 at the Metro Fire Department's training facility in Lexington. The exercise was sponsored by the Kentucky Disaster and Emergency Services Organization.

Rescue squad members from the 17-county Bluegrass region attended discussions on legal aspects of rescue work, accident response and on-the-job research and rescue procedures.



"Quite simple. It's not for sale."

Letters to DEBORAH WHITE

DEAR DEBBIE:

Our son has been arrested so many times for speeding and reckless driving that he had his license taken from him for one year. That doesn't stop him. He is out every night driving without a license and my husband and I live in fear of a telephone call coming from the police telling us something has happened to him, or he has seriously injured someone else. We have taken the keys from him, but he seems to have a limitless supply of them or can start the car without them. Our boy doesn't seem to realize the danger he poses for himself and others.

A MOTHER

DEAR MOM:

Put the car in a garage under lock and key, or if you're forced to, sell it. Your son is a menace on the road and extreme action in your case is necessary. The next time you know he is out with the car — and I know how difficult this is for a parent — call the police and report an unlicensed driver in the area. Your son's compulsion for danger speaks of deep psychological conflicts within him. I suggest you seek professional help.

• • •

DEAR DEBBIE:

My girlfriend and I saw a news show recently where they showed lines of people waiting in front of a movie to see an X-rated movie. The news commentator said that porno films are in and that even a director like Francis Ford Coppola made a porno film. Now all my girlfriend wants to do is see porno films. It's like that new program gave her the green light. The thing of it is that I get embarrassed when I go to see them. I just get flushed thinking about the people around me in the movie turning on in public and I look at my girlfriend and she's really interested in what's happening on the screen. Later on I say something about it and we get into a big argument. She calls me Goody Two Shoes and I lose my temper because I am not like that at all. Do you think I'm crazy?

A REGULAR GUY

DEAR REGULAR

I don't know how serious you are about your girlfriend or your attitude about blue movies. I do know you had better come to some agreement on this issue, or you might just as well save each other a lot of time and say goodbye now. Because if you're overscrupulous and she's overzealous on a particular subject, never the twain shall meet. Couldn't both of you meet each other halfway—first she goes to the movie you like, and the next time, you go to the movie that she likes.

Banquet is tonight

The Rev. Steven Englehardt, Hillsboro, will present the program for the Graduation Banquet at the Carlisle United Methodist Church tonight, Thursday, May 20, at 6:30 p.m. The Wesleyan Service Guild of the Methodist Women annually gives this banquet for the high school seniors and the youth who are completing the eighth grade from the church.

Rev. Englehardt presents a singing program of many of his own compositions. He accompanies himself on the guitar. The Asbury Theological Seminary student has been pastor for several years in Hillsboro. Previously he had served as the Youth Director for the Morehead United Methodist Church.

Bells are elected co-presidents

About 250 people attended the Bourbon County High School Band Banquet held Friday evening, May 14 in the cafeteria of the Bourbon County High School. The banquet, sponsored by the band boosters organization, was in honor of graduating senior members of the band. Invited guests were eighth grade members of the junior high school band and their families and members of the Bourbon County Board of Education.

Mr. and Mrs. Donald Stone of Millersburg, co-presidents of the band boosters, turned over leadership of the organization to Mr. and Mrs. Russell Bell of Nicholas county, co-presidents for the coming year. According to Dan Eberlein, band director, the organization makes $9,000 to $10,000 per year for the band to use for various expenses. Other officers installed are: Mrs. Darald Fischer, vice president; Mrs. Howard Hurst, recording secretary; Mrs. Ben Donovan, corresponding secretary and Darald Fischer, treasurer.

Fertilizer supply is adequate

Fertilizer supplies are expected to be adequate in most parts of the nation this year, but late buying and dislocation of supplies are causing some problems, William J. Scherle, Energy Coordinator for the U.S. Department of Agriculture said recently.

"The supply of nitrogen is up to about 9.8 million tons, 3% over last year and about the same as two years ago. This nutrient should be adequate, however, local shortages may occur in some areas in May and June because early ordering delays are causing transportation problems," Scherle said.

He said phosphate supplies are up to 5.7 million tons, 13% over last year and expected to be more than adequate. Potash production at 4.7 million tons is down 12%, but I understand it will be ample, Scherle noted.

Colleges receive Blazer Grants

ASHLAND—Three Kentucky junior colleges are the 1976 recipients of the Paul G. Blazer Memorial Grant and each will receive $5,000 grants from the company Blazer founded —Ashland Oil, Inc.

Named as 1976 recipients were Alice Lloyd College, Pippa Passes; Lees Junior College, Jackson, and Sue Bennett College, London.

The memorial grant program was established in 1974 through Ashland Oil's education and community support program to support junior college education. Each year the committee selects three junior colleges as recipients of $5,000 grants.
