State police open local base offices

FRANKFORT—The Kentucky State Police opened three Local Base Offices last week as part of a pilot program to bring officers closer to the public.

The bases in Shelby, Scott, and Fayette counties are located in State Police Post 12, headquartered in Frankfort. Offices in the other four Post 12 counties will be in operation in the near future, according to police officials. Until then, the Frankfort office will accept collect calls from those counties.

The bases were put into operation after office space was provided rent-free by the county governments. They will be in operation for a trial period of six months. After that, police say if the program is as successful as expected it will be extended statewide as the budget permits. Officials say they hope to eventually find the funds to provide a state police toll-free number for all citizens in Kentucky.

The idea behind the local offices is to allow easy access to state police by people located in a county where a post is not housed. The bases will enable citizens to make a report or ask for assistance without a long distance call.

Police say this will make better use of the "extensive training at both the recruit and in-service level in all aspects of police science" the state policeman has undergone.

NOTICE TO PUBLIC
Notice is hereby given that Kentucky Utilities Company has filed with the Public Service Commission of Kentucky an Application to modify its retail rate Fuel Clause.
If the average cost of fuel consumed by the Company's generating stations is in excess of or less than 36.492 cents per million BTU, as determined from the Company's most recent monthly operating reports available, prior to the beginning of the month, an additional charge or credit will be made on the kilowatt-hours purchased by the customer at the rate of .00113 cent per kilowatt-hour for each 1 cent or fraction thereof variation in the cost of fuel above or below 36.492 cents per million BTU for that month's billing.
The effect of this modification upon its customers would be to reduce the time between fuel expense expenditure and its recovery through Fuel Clause application. In moving from the present three month calculation period to the proposed one month calculation period there will be two months' fuel expense eliminated from recovery under the Fuel Clause. The Company has requested authority to recover this amount, prorated over the next twelve months, by surcharge. This does not constitute an increase in rates.
This Application is set for public hearing at the offices of the Public Service Commission in the Capital Plaza Tower, Frankfort, Kentucky, on October 19, 1976, at 9:00 A.M., E.D.T. 9-30-3tchg.

MAGICWORD
HOW TO PLAY: Read the list of words. Look at the puzzle. You'll find these words in all directions — horizontally, vertically, diagonally, backwards. Draw a circle around each letter of a word found in the puzzle then strike it off list. Circling it will show a letter has been used but will leave it visible should it also form part of another word. Find the big words first. When letters of all listed words are circled, you'll have the given number of letters left over. They'll spell out your MAGICWORD.
