

UK won't for Men Only at the Start First Coeds in 1880

Higher education for women in the late 1800's was not the general rule. But at Kentucky A&M became coeducational in 1880, there were surprisingly large numbers of women enrolled, as the annual registers of the College...

At the outset the women students were primarily enrolled in a "Normal Department" of the College, where they were educated as teachers. The early College had a curriculum that went far beyond just agriculture and mechanical arts.

It wasn't until 1905 that a class in domestic science was offered. The class was held in the basement of the girls' dormitory and was concerned entirely with food and food preparation.

Quite a number of women undoubtedly figured prominently in the early history of the College of Agriculture in roles supporting research and in the development of "domestic science" instruction.

One of the earliest records of women involvement in the College was that of Alice M. Shelby, who was listed as a "breakthrough" for the Experiment Station in the station's annual report of 1891.

In 1881, the names indicated 72 of the 319 total enrollment were "matriculates," were listed in the annual "register" of the College. The listing of the names eventually had to be eliminated because of the growth and expansion of the College.

The gender of the students, as indicated by the names listed in the first register, gave an insight in the number that were women. It is believed that the first woman to be listed in the first year class—1880, The total enrollment that year was 234.

In 1881, the names indicated 72 of the 319 total enrollment were "matriculates," numbered 79 from an enrollment of 486. And in 1882, the names listed in the register for College courses, 101 were women.

Apparently Mrs. Lucy B. Black was the first woman on the list of 1888 as matron and assistant in the preparatory department. In the 1889 register she was listed as matron and instructor in the Academy.

In the register of 1889 Mrs. B. A. Orcutt was listed as a faculty assistant in the Commercial and Photographic Department, apparently the second woman that became a faculty member.

Simple home repairs subject of class

The Nicholas County Home Economics department is sponsoring a class of two lessons on Simple Home Repairs. The classes will be held in the home economics department and for lab work the shop will be used.

The series of lessons will be taught by Bill Guthrie. The following topics will be discussed: simple plumbing repairs, simple electrical repairs, techniques in laying tile and carpet and patching plastered walls.

The class is free and baby-sitting will be provided at no charge. For further information call 289-5292, 289-5303 or 289-7111.

Headquarters group meets

The Headquarters Homemakers met Tuesday, Sept. 7 at Mrs. V. Allison's Lab. Current residence was the first teacher. There was an open discussion on "Violence and Sex on TV."

Miss Elaine Riggs, student at Asbury College, Wilmore and Miss Sandy Collins, student at Morehead State University, spent the weekend with their parents here.

Mr. and Mrs. Fred Hollar visited Mrs. Shirley Collins on Thursday afternoon. Mr. and Mrs. David Collins of Panama City, Fla. and other places of interest. Mr. and Mrs. Naomi Gaunce were Sunday supper guests of Mr. and Mrs. Andrew Grey.

Miss Alma Mattox and Carl Mattox and Mrs. Bobby Brady enjoyed the hymn sing at White Oak Church on Saturday night featuring the "Singing Instruments."

Mr. and Mrs. Fred Hollar spent the past Sunday with Gladys Kenney, Julian Gaunce, Mr. and Mrs. Andrew Grey were Monday supper guests of Mrs. Woodrow Gaunce in Carle, Mrs. Stanley Caswell, Carlisle, Sunday with Mr. and Mrs. H.A. Gaunce and family.

Tracy Holly spent Saturday and Sunday with Denise Stone of Carlisle. Miss Kathy Dawson, Headquarters, spent the weekend with Joanna Mattox. Oldest high-speed locomotive coming out of retirement

FRANKFORT-1, the oldest surviving high-speed locomotive of its type, is coming out of retirement next spring after being out of service since 1958.

Engine No. 152 had quite a history, according to Wilson. It was built by Rogers Locomotive Works at Patterson, N.J. in 1905 and the Louisville and Nashville Railroad bought it for \$13,000.

Engine No. 152 was entered on the National Register of Historic Places in 1974. Lasting on the register entails properties and objects of historical, architectural and archaeological significance to federal restoration grants from the parks service.

Frederick Wilson, a historical architect with the heritage commission, said the restoration grant provided for Engine No. 152 is unprecedented and unique in that it will allow steam excursion tours and bring history to the people.

Engine No. 152 had quite a history, according to Wilson. It was built by Rogers Locomotive Works at Patterson, N.J. in 1905 and the Louisville and Nashville Railroad bought it for \$13,000.

Donations sought for patient fund at Eastern State

Mrs. Raymond Curry is a volunteer worker for the Eastern State Hospital patient fund. She is collecting personal items for the patients now, and for use at Christmas.

Any club, organization or individual who wishes to donate or help can contact her at P.O. Box 25, Moorefield, KY 40350.

Mrs. Curry will explain the program at any club meeting or organization upon request.

According to Mrs. Curry the gifts do not have to be expensive. Personal items such as shampoo, deodorant and tooth paste are needed and appreciated. As are coloring books, crayons, stationery and pens and pencils. She stated, "Some of these people have a family to take care of the little needs."

Tenth district V.F.W. Auxiliary to meet The 10th District Meeting of the V.F.W. Ladies Auxiliary will be held Sunday, Sept. 19 at 2 p.m. at the V.F.W. Post #666 on Walnut Street.

Mrs. Brenda Barnett is named chairman Mrs. Brenda Barnett has been named as Carlisle chairman of the Friendship Campaign of the Kentucky Association for Retarded Children. Mrs. Barnett will lead local volunteers in raising funds to support the work of the association. Assisting as co-chairman will be Ms. Faye Buzzard.

Church homecoming slated for Sunday Cassidy Methodist Church will have their homecoming on Sunday, Sept. 15. Sunday School will be at 10 a.m. with the worship service at 11 a.m. A basket lunch will be served on the church grounds at noon.

Afternoon service will be at 2 p.m. with a Gospel Sing. The Bailey Family Sing will be featured along with other singers.

Rev. Marion Snapp is the pastor. Everyone is welcome to attend. An electric heat pump—a space-age system which heats and cools a heat pump conserves electricity during about two times the energy it uses. It provides you with year-round comfort, too. Even on the coldest winter day, there is "solar" heat in the air. A heat pump absorbs this warmth and delivers it into your home. The same unit cools in hot weather, removing excess indoor heat. Investigate a heat pump system. It could be the heart-beat of your home.
