deteriorate.

Chemical changes caused by en zymes happen in food all the time before, during and after processing. The high heat of the canning procedure inactivates enzymes and drastically slows down chemical reactions, but it

slows down chemical reactions, but it doesn't stop the enzymes completely.

This is why even though canned foods will keep much longer than a year as far as being safe to eat, nutritionists recommended using up these foods within a reasonable period of time.

WHAT IS SUPPLEMENTAL

WHAT IS SUPPLEMENTAL SECURITY INCOME [S817] Supplemental Security Income (S81) is a Federal Program that pays monthly checks to people in financial model with the program of the people of the property of the program of the people of the program of the people of the pe
