On Monday, May 23, the Nicholas County Ministerial Association will sponsor a Mobile Blood Drawing in the Fellowship Hall of the First Baptist Church, between the hours of 1 p.m. to 3:30 p.m. and from 7 p.m. to 9 p.m. Persons interested in donating should contact Rev. H. Dallas Sugg at 286-5293 or 286-5652.

Nicholas county residents, and others who depend upon the NCHD to furnish blood, should make every endeavor to furnish one day's supply of blood for our 46-county area. Other counties help us when we are in trouble, so let's pitch in and help.

According to Rev. Sugg, two particular groups will be target groups this time. The first is the group who has never given. Anyone who is 18 years of age and in good health can give. There are some general guidelines to follow, and the callus have these.

The second target group will be those who are permanent defectors. These people must furnish a donor in their place. This is the agreement made when becoming a member of the Nicholas County Donor's Group.

If we get at least 100 units of blood on May 23, we will be covered for the time ending Oct. 1. This means that every Nicholas county resident will be covered. It also means that anyone outside of Nicholas county who holds a donor's card, and who has given when called upon, will also be covered.

Let's answer our phone with a "Yes!-Will-Be-Glad-to-Give" attitude! We did a super job last time. Let's do it again! Anyone who would like to come in and replace blood for someone who has already had the blood and is not a member of the Nicholas County Donor's Group may do so by calling Rev. Sugg and making an appointment.

April 5 was a day that Eastern Kentuckians will long remember. Many were forced to flee from their homes, and a few lost friends and loved ones to the rampaging fire.

The disruption here of the flood was extensive and far-reaching—even the supply of blood was severely hampered by it as three mobile blood drawings scheduled for the Eastern Kentucky area had to be cancelled indefinitely.

When mobile blood drawings are scheduled at this site, the Central Kentucky Blood Center depends on the blood donated that day to ship to customers in the 41 hospitals in its 46-county service area. When one has to be cancelled, this cuts the supply short. Over 100 pints of blood are needed each day to keep up with the normal demands of the area, but when disaster strikes, that amount can double.

Since the snows in January and February, the supply has been low, but now, these cancellations have further compounded the problem. As summer approaches, blood needs will increase and it is hoped that there will be enough willing blood donors who will help to supply this vital gift of life.

Nicholas County Historical Society to hold annual dinner meet June 3

The Nicholas County Historical Society will hold its annual dinner meeting on Friday, June 3, at 6:30 p.m. at Carnation County Club. All persons interested in the history of Nicholas county are invited to attend whether they are society members or not.

Soil Stewardship Sunday observance is announced

The Nicholas County Ministerial Association has voted to observe May 15 as the day for Soil Stewardship Sunday. Although the observance of it will vary in the different churches some emphasis will be given. Bulletin and inserts provided by the local Soil Conservation District will be used in most of the churches.

Soil Stewardship Week, a nationwide observance which emphasizes man's responsibility to protect and conserve soil, water, and other natural resources, will be May 15-22. Edgar Allen Durrell, chairman of the Nicholas County Conservation District, announced Monday.

This year's theme will be "When We Care." The theme carries with it the concept that when we care enough we will protect our soils so that they may produce more and better crops. This care is a part of the greater stewardship that we all have. Since Christians are much concerned about stewardship then Soil Stewardship also fits within their care and concerns according to our local ministers.

Throughout the week, church men have offered humble thanks to their creator for the precious gifts of air, soil, water, and sunshine which make all living things possible.

More than 1,000 years ago in the neighborhood of Vienna, France a special day called Rogation Day was set aside to thank the Almighty for his abundance and to ask for continued crops and harvest blessings. The background for this special occasion

was an earthquake and other bad weather conditions which had made for a less than expected crop production. Throughout parts of the South early in our history, many areas set aside days that would correspond to the Rogation Day. These special periods were called Soil and Soul Sunday. These observances usually took place five weeks after Easter.

In 1946, the publishers of Farm and Ranch Magazine suggested to religious leaders in a few Southern states that one Sunday each year be set aside for the observance of soil stewardship.

It was not until 1956 when the National Association of Conservation Districts set up a Soil Stewardship Advisory Committee of ecologists representing many of the country's religious denominations. Desiring not to be in conflict with Rural Life Sunday, the Sunday was called Soil Stewardship Sunday. It was proposed to being on the fifth Sunday after Easter and to conclude on the sixth Sunday after Easter.

Let each of us remember in a community where so much of our total economy depends upon the soil, love for the soil comes from the soil. And "when we care" for both the soil and the soil we will be good stewards, Mr. Durrell and our ministers agree.
