

Jackets end season 48-0; accept CKC bid tonight

by Kay Conley The Nicholas County Bluejackets will not get their season that Thursday night, Nov. 18, taking on Woodford County at the Central Kentucky Conference house at Fleming...

Jackets overwhelm Panthers 48-0

Nicholas County had the victory in their game with the start scoring in every quarter of the game. Clifford Thompson played two yards for the Bluejackets first touchdown early in the first quarter three plays after Kevin Gilliam recovered a Fleming County fumble on their 23 yard line. Tim Moreland's extra-point kick attempt failed. Later on in that quarter, a 14 yard pass from Joe Huddell to Tommy O'Connell gave the Jackets another six points. Moreland's extra-point kick proved good. The score 13-0 in favor of Nicholas County at the end of the quarter.

Midway through the second quarter, Huddell again successfully completed a touchdown pass, this time to junior Handy Hunter. A few minutes later there was a bad snap on the extra-point kick attempt, but junior quarterback Mark Huddell picked up the ball and passed it to Handy Hunter to complete a successful two-point conversion after Junior quarterback Mark Huddell picked up a bad snap on the extra-point attempt in the second quarter of the Fleming County game.

The Jackets knelt in prayer after the game at Flemingsburg Friday night. The team prays together immediately after every football game they play. The Jackets have accepted an invitation to play Woodford County in the Central Kentucky Conference bowl tonight at 7:30 p.m. in Versailles—Kay Conley photo

Operation Wallet!

Inflation is like a devilish thief who slips into our wallets and removes part of our buying power.

No one escapes inflation. The higher costs of generators, transmission poles, power plant construction — all those things that go into generating and transmitting electricity — must be charged to the consumer.

While an individual cannot, alone, defeat inflation, there are things that can be done to lessen the loss. Wasted energy is expensive and serves no purpose. So the wise home owner does everything possible to avoid waste.

You can, too, by installing storm doors and windows on your home. They will help keep winter's cold air out ... and heated air in. Space heating is the largest user of home energy, so storm doors and windows will pay for themselves in a relatively short time. Once paid for, these same doors and windows will continue to save money for you, year after year.

If your home is not protected by storm doors and windows, watch out. Your wallet's open.
