Think about our natural resources

For various reasons, the importance
of conservation of our natural resources
is being realized. One such reason is
the energy crunch, the economic slump or
the world trade deficit. We sometimes
fail to give this national problem very
much serious thought.

Under all is the land and we need
more involved participants in the
conservation of our natural resources.

WASHER SYSTEM - If the washer fails to
squirt properly, raise hot and check system
hose connections. Be sure washer fluid container
has fluid. Check soap openings for clogging.

BAGGAGE LOSSES
Last year a single major
U.S. airline carried more
than 50 million pieces of
checked luggage. Inevitably,
a few pieces were
misdirected, lost, or
damaged. Here's how to
prevent your luggage from
being lost or damaged, and
to help prevent your luggage
from being lost or damaged,
and to help prevent your luggage
from being lost or damaged.

WINTER FREEZE - To cut down on costly repair
bills and extend the life of your air conditioner, run
it every couple of weeks throughout the year for 10
minutes or so. To prevent freezing, warm up the engine
first, turn back to warm air on the air conditioner.
It's a painless maintenance!

MAGICWORD
HOW TO PLAY: Read the list of words. Look at the puzzle.
Find the words in all directions - horizontally, vertically,
diagonally, backward. One or more words may be found
in the puzzle that will strike off a letter. When a letter
has been used, but will not be used in the puzzle, it will
be marked with a dot. Find the big word first. When letters left
over are marked, you'll know the puzzle is solved.
