SPREADING THE WORD

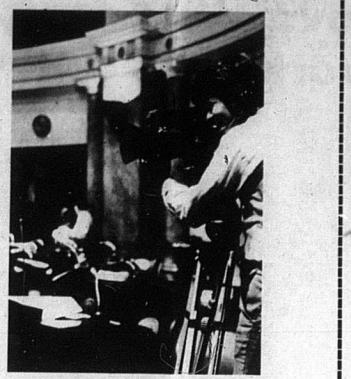
Every two years (or more often if there is a special session of the legislature), the state Capitol's rooms and corridors teem with lawmakers, lobbyists, constituents from back home and legislative staffers, among others.

Some of those "others" are representatives of newspapers, television stations and radio stations. Although many of these press people are part of the Capitol press corps—that is, they're headquartered in Frankfort year-round—many others come to Frankfort only to cover the session.

During the first days of the 1978 General Assembly, the Legislative Research Commission held a Media Day for press representatives. Part of the offering was a tour of the Capitol facilities (below right).

When the House or Senate is not in session, reporters can be seen at the desks of legislators interviewing them. Sen. Richard Weisenberger (below, left) answers a reporter's question at his desk in the Senate, while in the House, a TV cameraman prepares a film activity.

For the first time this session, Kentucky Educational Television (KET) is filming legislative activity daily.



Kentucky Department of Public Information Photos

Barley and grain sorghum target prices told

Target price levels for 1977-crop barley and grain sorghum were announced Jan. 12 by Vice President Walter F. Mondale.

In remarks to the press at the wheat quality laboratories of Washington State University, Vice President Mondale said the 1977 target price levels will be $2.15 per bushel for barley and $2.28 per bushel for grain sorghum.

"Establishing these target price levels is important for two reasons. First, it extends the principle of treating all producers of the major commodity fairly and equitably. We are using the same components of production costs for barley and grain sorghum that the administration used in formulating wheat, corn, and upland cotton program proposals to the Congress for the Food and Agriculture Act of 1977. Second, this action means that barley producers will receive payments nationally totaling approximately $208 million," the Vice President said.

Vice President Mondale also indicated that it will be March before the preliminary determination on the deficiency payment rate for grain sorghum will be made. The final payment rate will be determined in April with payments to producers beginning soon thereafter. Early estimates are that the payment rate will be 35-40 cents per bushel with payments totaling $300-$325 million.

"Coupled with the wheat deficiency payments of $1.2 billion, direct payments to grain producers this will total approximately $1.7 billion. This should help the serious cash-flow problems, that farmers have experienced because of low grain prices," the Vice President said.

Nursing applications being accepted

MOREHEAD — Morehead State University's Office of Admissions is accepting applications for the fall nursing class.

Students interested in the two-year program must submit an application, a recent photograph, reading test scores, nursing math test scores and ACT results.

Each applicant is interviewed by the head of the Department of Nursing and Allied Health.

Required tests are available in the MSU Testing Center, 501 Ginger hall. The deadline for submitting application material is March 1.

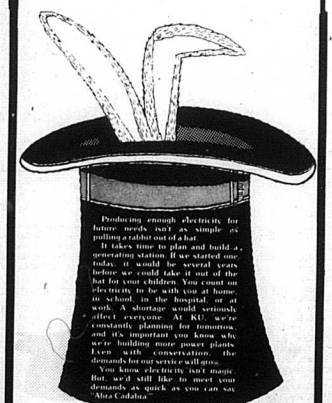
Every day is bright and sunny with an Ad to make you Money

"ABRA CADABRA" won't work.



Producing enough electricity for future needs isn't as simple as pulling a rabbit out of a hat.

It takes time to plan and build a generating station. If we started one today, it would be several years before we could take it out of the hat for your children. You count on electricity to be with you at home, at school, in the hospital, or at work. A shortage would seriously affect everyone. At KU, we're constantly planning for tomorrow, and it's important you know why we're building more power plants. Even with conservation, the demands for our service will grow.

You know, electricity isn't magic. But, we'd still like to meet your demands as quick as you can say "Abra Cadabra."

RESOLUTION

WHEREAS, Mrs. Albert (Christine) Booth, with her departed husband, have served Nicholas County faithfully and well for twenty years as County Jailer; and

WHEREAS, she retired from that position effective January 2, 1978; and

WHEREAS, the Nicholas County Fiscal Court deems it fitting and proper that she be commended for her long years of public service;

NOW THEREFORE, BE IT RESOLVED that the Nicholas County Fiscal Court hereby show its appreciation for Mrs. Booth's twenty years of service to Nicholas County in the Nicholas County Jail, and commend her for a job well done, and wish her Godspeed and good health in her future endeavors, and that this Resolution be spread upon the minutes of this body and published in The Carlisle Mercury, and that she be presented with a copy of same.

Done in regular session this 19th day of January, 1978.

Reese Smoot
Nicholas County Judge/Executive

SAY YOU SAW IT IN THE MERCURY

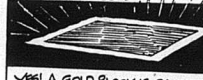
LAUGH OUT

"Mother," said a little boy after coming from a walk, "I've seen a man who makes horses."

"Are you sure?" asked his mother.

"Yes," he replied. "He had a horse nearly finished when I saw him. He was just nailing on his feet."

IS GOLD LEAF MADE OF SOLID GOLD?



YES! A GOLD BLOCK IS POUNDED INTO A THIN SHEET BY MACHINE! THEN IT IS REDUCED TO TRANSPARENT THINNESS BY HAND! IT CAN BE BEATEN SO THIN THAT 1200 SHEETS OF GOLD LEAF ARE THINNER THAN A SHEET OF WRITING PAPER!

MAGICWORD

HOW TO PLAY: Read the list of words. Look at the puzzle. You'll find these words in all directions — horizontally, vertically, diagonally, backwards. Draw a circle around each letter of a word found in the puzzle then strike it off list. Circling it will show a letter has been used but will leave it visible should it also form part of another word. Find the big words first. When letters of all listed words are circled, you'll have the given number of letters left over. They'll spell out your MAGICWORD.
