We're On The Job!

If a storm causes the electricity to go off, we hope your family is safe at home. You can rest assured our crews are out locating the source of the trouble, working to get service restored. They swing into action upon receiving the first calls. And when additional telephone calls may jam the switchboards, KU employees are likely already on the job. Please understand that electrical outages caused by storms result in a heavy work load and difficult working conditions.

You can help by turning off all electrical equipment and by leaving on only one light as a signal until service has been restored.

Nicholas County receives \$211,207 for its rural secondary roads program

FRANKFORT — State Transportation Secretary Calvin D. Grayson has announced that Nicholas County will receive \$211,207 to support its Rural Secondary Road Program for the next fiscal year, which begins July 1.

Similar allocations to other counties also are being announced locally. According to Grayson, the Nicholas County program will provide for maintenance along some 48.7 miles of local roads. Specific improvement projects also included in the program are: Blacktop resurfacing on four-tenths of a mile of Old Boy Road (CR 1210); three-tenths of a mile of Sunday Street (CR 1205) northeast of Carlisle; and six-tenths of a mile of Millown-Point Road (CR 1107).

Development of plans for two bridges on the Bartons-Rose Hill Road (KY 121), located six-tenths of a mile and 1.3 miles north of U. S. 60. The rural secondary road program was established under a 1944 law to help maintain and improve the farm-to-market and other essential rural roads.

It is financed under a formula which provides that two cents of the tax collected on each gallon of motor fuels sold in Kentucky be set aside for allocation to support the rural secondary road program. The allocations are announced once annually on a fiscal-year basis.

In a related announcement Grayson said that Carlisle will receive \$11,327 in municipal road aid funds. Municipal aid special emergency funds account for \$104,000, to be used to replace an inadequate bridge over Brasley Fork Creek on Upper Jacktown Pike near the intersection with Market Street.

Repairs to a bridge deck over McBride Creek on KY 308 (the KY 1241.5. 68 Road), three miles east of U. S. 60.
