Kay's Kitchen

For those canning this season for the first time, I'll try to give some basic information on canning.

FRUIT PRESERVES
When canning berries wash and pick over berries. Pack closely in jars; fill with boiling medium syrup and process 20 minutes in boiling water bath.

SYRUP FOR CANNING
Thin syrup—One cup sugar to 1 cup water. Stir well before heating and bring slowly to a boil. Use for naturally sweet fruit.

CANNING VEGETABLES
Canning vegetables is much more difficult than tomatoes and fruits. Greater care must be taken in preparing and a longer cooking time is required.

BEANS, GREEN SNAP OR WAX
Wash, remove strings and tops. Break into small pieces. Pre-cook 5 minutes. Reserve water. Fill jars with boiling reserved water and add 1 teaspoon salt.

CANNING FRUITS
Select firm ripe fruit. Wash, pare and core or seed; cut into pieces of halves. Drop in sterilized jars to 1 quart of halved fresh lemon juice to 1 quart of fruit.

GRAPE JUICE
Wash ripe Concord grapes. Cover with boiling water and heat slowly to simmering. Drain off water. Cook slowly until fruit is very soft then strain through fine cloth or a bag of cheese cloth. Add 1/2 cup sugar to each quart. Process for 5 minutes in a boiling water bath.
