Thank You

My family and I would like to thank everyone who voted for me for Jailer. We worked very hard, but just came up short.

I want to wish Charles and Emma luck as Nicholas County Jailer.

Thanks,

Herman, Opal, Larry and Barry Bertz

Day care operators get increase

Operators of day care centers in Kentucky are getting a nine percent increase in federal funds to cover increased operating costs, says Human Resources Secretary Peter Conn.

Kentucky Department for Human Resources administers federal funds for day care centers under the Title XX social services program. The maximum daily amount the department can pay for day care services was increased from $6.40 to $7 per child, effective May 1, 1979.

Payments are made by the department's Bureau for Social Services directly to operators of day care centers.

Day care charges to parents will continue to be based on the family's gross income and number of family members, following the bureau's day care fee schedule. The federal funds allow the department to pay the difference between the amount the parents can pay and the actual cost of day care service up to $7 per child per day.

Poverty-level families are eligible for financial help in meeting day care costs through the Title XX funds.

NOTICE

I, Home occupations as required by the City of Carlisle Zoning Ordinance are a conditional use, which before such conditional use is permitted requires a conditional use permit from the Board of Adjustment.

"Home Occupation" is one that is incident to the use of the premises or dwelling place and not one in which the use of the premises as a dwelling is largely incidental to the occupation carried on. Only family members can engage in the home occupation, and not more than 25 percent of the floor area of the dwelling can be used in the home occupation.

There are other provisions of the Zoning Ordinance setting out the limits of a home occupation.

Violation of the Zoning Regulations carry a stiff penalty, so please check the ordinance before commencing a home occupation, and obtain a conditional use permit.

II. Under the Zoning Ordinance adopted by the City of Carlisle, Kentucky, Mobile Homes shall only be permitted in mobile home parks and mobile homes in parks shall be permitted only in those districts where they are designated as conditional uses.

Presently there are no districts within the city limits that allow mobile home parks as conditional uses. The only mobile homes allowable within the city limits are those that were situated therein before the adoption of the Zoning Ordinance. There can be no enlargement or changes or substitutions or movement of such mobile homes.

III. "Nonconforming use or structure" means an activity or a building, sign, structure or a portion thereof which lawfully existed before the adoption of the Zoning Ordinance, but which does not conform to the Zoning Ordinance after its adoption.

No enlargement or extension of a nonconforming use beyond the scope and area of its operation is allowed or permissable.

Violation of the Zoning Ordinance carries a stiff penalty, so please check the ordinance.

The Happy Gardener

ROSE CARE

Some beginning gardeners shy away from roses because they believe them to be difficult - not so. Enough roses do thrive best when given proper care.

Water roses in the morning so they have a chance to dry off before the cooler night air reaches them. Water on the leaves during the night can inspire fungus growth. Try not to wet the leaves rather to water the bases of the bushes with a light stream from the hose.

Fertilize and spray against pests at three separate intervals during the summer: when the buds first form, after blooming has begun, and later on, when Japanese beetles start their invasion. Never spray bushes when the weather is particularly hot and humid.

Early in the season rose bushes will profit from a cupful of bonemeal and a large dose of wood ashes -about one scoop with a gardening shovel.

If you notice dark spots on the leaves and if foliage becomes brittle when handled, this is a sign that black spot is infesting your bushes. Immediately cut off the diseased leaves, use a spray insecticide such as Isotox, and destroy the leaves you have removed to prevent reinfection.

If Japanese beetles show up despite your insecticide treatments, pluck them off by hand. Be sure to get all of them into a jar of insecticide, alcohol or a detergent and water solution.

Feelin' Good

By M.A. PETTI, M.D.

Most of the good in milk is in the skim milk. The cream is essentially all fat. That means lots of calories and lots of cholesterol, which is okay for babies, but not for adults. Give the cream to the pigs and drink the skim milk.

Laugh Out

"It's awful, Mrs. Smith, the way sports are degenerating. My boy was dismissed from the ball team because he was too honest."

"What was the matter?"

"He wouldn't steal bases."

MAGICWORD

HOW TO PLAY: Read the list of words. Look at the puzzle. You'll find these words in the puzzle — horizontally, vertically, diagonally, backwards. Draw a circle around each letter of a word found in the puzzle then strike it off the list. Circling it will show a letter has been used but will leave it visible should it also form part of another word. Find the 10 words first. When letters of all listed words are circled, you'll have the given number of letters left over. They'll spell out your MAGICWORD.
