

ASC signups on

Sign-up for the Feed Grain and Wheat Program is now underway. Farmers have until April 30 to visit the local ASCS office and sign-up for program benefits. Under the program feed grain farmers are asked to set aside 10 percent of their 1979 acreage, and 20 percent of their wheat acreage, and through participation in the program, farmers will be eligible for cost deficiency payments, and disaster payments.

The 1979 Agricultural Conservation Program for Nicholas County is almost the same as last year's program. To be eligible for cost-share assistance for practices, farmers must make application at the ASCS office. Applicants must wait for notice of practice approval before starting the practice. This year the maximum cost-share limit has been increased to \$5,000 as opposed to the \$2,500 limit in the 1978 program. Anyone wishing to do a seeding practice should apply to the county agent's office in the basement of the courthouse.

1979 barley quota notices will be mailed today, March 15. Notices for the 1979 crop can be made at the ASCS office starting tomorrow, March 16. At the current time, the barley tobacco provision are the same as last year. All producers will be notified if there are any changes in the program.

Chapel Fund Drive

"We must have quiet times in quiet places if we are to know God is with us as we live our lives in Carlisle."

The Nicholas County Ministerial Association Chapel Fund now contains a little over \$6,000 toward their goal of \$10,000. Of that they are raising to erect a new chapel at the new hospital-nursing home complex. Thus far his response has been good but we are still short of the amount of funds needed to complete the project. Construction of the interdenominational chapel is expected to begin in the next couple of weeks.

If you would like to make a contribution toward the building of the chapel, simply clip out the form below and mail it with your contribution to:
