GET YOUR $WORTH

By SALLY and JIM ADAMS

ELECTRICITY III

Like any appliance containing a heating element, your iron is a gulper of electricity. An iron heats faster than it cools, so first iron fabrics that require lower temperatures and then go on to those requiring higher heat. Turn off the iron about five minutes before you are finished and use the heat stored in the soleplate.

If you use an electric range, pots and pans should be large enough to completely cover the cooking coil; otherwise, heat is wasted. Select pots and pans with flat bottoms; rounded bottoms leave an air gap through which heat can escape.

Get in the habit of always keeping a lid on the pot; this saves by reducing the cooking time and permitting reduced temperature settings. Using a pressure cooker will cut your food preparation time by about one-third.

Begin on high heat until liquids start to boil; then lower the heat and let food simmer until cooked.

When using an electric oven, try to cook as much of the meal as possible at the same time. And time the preheat period — five to eight minutes is sufficient. Do not preheat for broiling or roasting.

Don't use the self-cleaning cycle on an electric oven except for big jobs.

Microwave ovens use only about half the electricity as a regular range and the cooking time is very much shorter. Portable electric utensils, such as a frying pan or toaster-broiler, use about one-third as much.

Feelin' Good

By M.A. PETTI, M.D.

Exercise tip: If your heart is still pounding away or if you're out of breath 10 minutes after you've finished exercising, or if you still feel tired two hours later, you've exercised too strenuously for your current state of physical condition.

Laugh Out

"Why does an ostrich have such a long neck?"

"Because its head is so far from its body, I guess."

MAGICWORD

HOW TO PLAY: Read the list of words. Look at the puzzle. You'll find these words in all directions — horizontally, vertically, diagonally, backwards. Draw a circle around each letter of a word found in the puzzle then strike it off the list. Circling it will show a letter has been used but will leave it visible should it also form part of another word. Find the big words first. When letters of all listed words are circled, you'll have the given number of letters left over. They'll spell out your MAGICWORD.

NEXT WEEK'S HOROSCOPE

By Clay R. Dolson

FOR WEEK BEGINNING MONDAY, MAY 14, 1979

If your birthday occurs this week ... Normally you are a materialist. The abstract, the philosophic, the visionary, have no particular appeal to you. Your loyalty is to individuals rather than ideals.

Aries | Mar. 21 - Apr. 19 | **Pluto** ♇

Strive to be a perfectionist. Don't let anyone intrude on your privacy. Keep to your own independent path, which will give you greater confidence and assurance. Good opportunities prevail. Gratification. Get out more. Join a new club if you've been thinking about it.

Taurus | Apr. 20 - May 20 | **Venus** ♀

Don't take on a cause about which you are dubious. Your own wisdom is the best guide. Don't allow yourself to be persuaded by anyone's eloquence. An article you thought lost/or destroyed comes to light. Look up old friends. Reject false flattery.

Gemini | May 21 - June 20 | **Mercury** ☿

The money department is accented. Be thrifty. Pull in financial reins. Tendency to overspend will catch up with you. Incorrect information or figures could cause faulty decisions. Unfavorable time for long-term money deals. Don't gamble on tips from strangers.

Cancer | June 21 - July 22 | **Moon** ☾

New starts are in order. Stress independence and reliability. Be in control of your emotions. Learn to know the difference between love and sensation. Chance to favorably impress an important, influential person comes. If asking favors, consider the timing.

Leo | July 23 - Aug. 21 | **Sun** ☉

Let up a little. Avoid pressing too hard. Take your time and do your work more thoroughly. Exercise more tact and diplomacy in dealing with associates. Don't be critical. Making too many demands causes ineffectiveness. Social prospects are bright. Travel favored.

Virgo | Aug. 23 - Sept. 22 | **Mercury** ☿

Emotions may take over now. You seem to be guided more by impulse than logic. You must settle down and try to be more practical. Realize this and pull in your reins. Watch spending and cut corners where you can. Forget the frustrations of long ago. Be optimistic.

Libra | Sept. 23 - Oct. 22 | **Venus** ♀

Caution is the key now. Be realistic. Refuse to be the victim of self-deception. Don't be pushed into a blocked corner. You can't always have your own way. Others may try to sell you short. Refuse to be tied down by tradition. Don't trust constant flatterers.

Scorpio | Oct. 23 - Nov. 21 | **Mars** ♂

Personal satisfaction is emphasized. You'll receive what you've justly earned. Pending issues will now come to a head. Good ideas that have not crystalized can now materialize into sound profit. You can add a Gemini person and expect to be helped in return.

Sagittarius | Nov. 22 - Dec. 21 | **Jupiter** ♃

A week to give mature thought to material things mostly. Stock up on staples, such as food and comfortable clothing. Look over certain ailing equipment and employ the services of competent repairmen. Whatever you do get receipts and warranties.

Capricorn | Dec. 22 - Jan. 19 | **Saturn** ♄

This is a time to explore and delve into foreign fields. Experiment, write, test ideas, make polls. Study publicity techniques and advertise your talents. Try to improve your ability to communicate better. Your intuition is more reliable than charts and projections.

Aquarius | Jan. 20 - Feb. 18 | **Uranus** ♅

Key this week is to be thorough. Double check everything. Be more inquisitive and analytical. Don't fumble around. Get to the heart of issues and problems. Be more subordinate and deal directly wit those at the top. Minor problems will be ironed out.

Pisces | Feb. 19 - Mar. 20 | **Neptune** ♆

Social and business relationships are emphasized now. Be more active; come out of your shell. Express yourself more freely, frankly. Unless you make known your wishes and needs, they won't be fulfilled. Certain people are in the mood to make you happier.

NOTICE TO PUBLIC

Harrison County Rural Electric Cooperative Corporation has filed with the Energy Regulatory Commission of Kentucky an Application to increase its rates in order to pass-through any increase granted to its wholesale power supplier, East Kentucky Power Cooperative, Inc., Lexington Road, P. O. Box 707, Winchester, Kentucky in ERC Case No. 7292 and to provide additional revenue of approximately $315,000 to offset added operating expenses. The total increase in revenue should be limited to the amount of revenue required to offset any increase in the wholesale power rate and the additional requested $315,000.

A public hearing concerning our Application (Case No. 7406) will be held at the offices of the Energy Regulatory Commission of Kentucky, 730 Schenkel Lane, P. O. Box 615, Frankfort, Kentucky on May 30, 1979 at 10:00 a.m., EDT.

The requested rates, in condensed form, are as follows:
