In need, call Hospice

care about it. The word "hospice" has come to stand for help, hope, and relationships which are offered skillfully and compassionately to persons who are experiencing the final stages of inoperable illness.

The Hospice Team is composed of nurses, clergy and volunteers who work in support of the patient's own physician. They can help the patient who desires to do so to remain at home with his family - adding life to his days when it is no longer possible to add years to his life.

Yes, "Hospice" means relationships. It means that we care deeply about others in our community and that they also care for us. Perhaps we in Nicholas County will decide that a Hospice Organization here would be yet another way that we can say to each other, "We care."
