### Why does the house with the most snow on the roof cost less to heat?

Because it has more insulation. Inadequate insulation in the attic lets the heat you pay for go up... literally through the roof. Upgrading your insulation will help keep your winter heating bills, as well as summer cooling costs, as low as possible.

Adding insulation to your attic can be a simple do-it-yourself project. Your local building supply dealer will have all the materials you need. Or simply call a qualified insulation contractor.

In addition to attic insulation, consider making other energy conservation home improvements. Adding storm windows and doors, installing weatherstripping and caulking and insulating walls, floors and ductwork will help increase comfort and conserve energy.

And you'll be using electricity more effectively.

Gov. Brown also is tightening hiring policies. The budget and use of the press are his chief weapons in holding the offices of elective constitutional officers within his guidelines.

He also has asked for a survey of rental property needed by the state. Many are waiting to see how his economy program lasts.

**In by nine, out by five**

**With surgery in between.**

It's called outpatient or same-day surgery. And it's one of the many programs Blue Cross and Blue Shield of Kentucky support to help keep health care costs down.

You just schedule your surgery, have your operation, and go home the same day.

Compared to inpatient surgery, you spend less time away from your family and job. And best of all, outpatient surgery is money by eliminating the hospital stay. 25% to 75% of the expense can be saved.

Outpatient surgery is not just for minor problems either. Thanks to improved surgical techniques, many operations that once involved several days in a hospital can be handled on the same day basis. And you receive the same professional, quality care as you would on an inpatient basis.

So, if you need surgery, check with your doctor to see if your procedure can be handled on an outpatient basis. It'll save you time and help hold down health care costs for all of us.

With the many advances in medical technology, today would be a good time for you to check your health care benefits to see if they will help meet today's costs. Write for information: 9995 Lane Station Road, Louisville, KY 40223. They'll send you a free "Who's Who in America" card.
