THE CARING CORNER

Remain 13:11 "It's full time now for you to wake from sleep. For salvation is nearer to us now than when we first believed."

Have you been telling yourself lately that "One of these days I'm going to get back into the habit of going to church." Or "as soon as the weather gets better we are going to visit that church." Or "I'd better shut off my New Year's resolutions and give more time to serving my Lord." Or "I have always wanted to find out what they believed."

If you have been telling yourself that or something similar then NOW is your opportunity to do something positive about it! Join with us this Sunday morning, vision morning, and share with us in worship. Share in our service as we confront our problems and the solutions to our problems. Remember, God cares about you.

Robins singing, crocuses blooming and temperatures warming could give anyone spring fever. But remember it has been just a short while since blustery winds and near zero temperatures kept us inside where it was warm. And some of us are now paying for electricity used during the cold, dark winter.

Heating systems worked harder during the cold weather and long nights, lights were turned on earlier and people did more cooking and TV watching. Even with conservation efforts, you probably used more electricity which makes your bills higher.

You can help control your costs by using electricity effectively.
