May school events are announced

Nicholas County schools are getting ready for graduation, yearend trips and all the usual activities that signal the close of school is near.

First on the list is a performance this Friday, May 3 of the NCHS senior class play "Friday Night Live" starring the Not Ready For Anytime Players.

The play is described as two one-act plays with 10 character sketches in a comedic vein. It begins at 8 p.m. Friday in the NCHS gym. Admission is $1.

Monday, May 5 marks the final meeting of the Nicholas County Elementary PTO for this year. A night of fun-filled entertainment is planned in honor of Teacher Appreciation Week. (See story.)

On May 7 the Fleming County Junior High gym acrobatic team will perform at the elementary school.

May 15 is the date of the spring dance for Nicholas County 7th and 8th graders. The dance will be held from 7 to 10 p.m.

May 22 is Class Night at Nicholas County High School. The program will begin at 8 p.m.

May 23 is the last day of school and will be marked at the elementary school by an all-day, school-wide Field Day. That evening at 7 p.m. Kindergarten graduation will be held at the elementary school.

May 25 is Graduation Day for the NCHS Class of 1980. Exercises will be held in the high school gym at 8 p.m.

Student achievers

These five NCHS students have been busy lately with extra-curricular activities. Leslie Ishmael (right) and Cathy Curtsinger (second from right) attended the 4-H Older Youth Conference in Washington, D.C. recently and Brenda McDonald (left), Lynn Judge (second from left) and Jeff Tidwell were regional speech contest winners and participated in the state speech contest at UK April 19 where Jeff and Brenda won medals. — Mercury photo.

Ann Sexton is named census leader

Ann Sexton has been appointed as Nicholas County Crew Leader for the 1980 Census.

Crew leaders will supervise much of the local effort in the 1980 Census of Population and Housing.

Each crew leader will supervise from nine to 13 enumerators or census takers in the national count that began March 1.

In training sessions crew leaders are learning how to recruit, train and supervise enumerators who will be hired in this area shortly.

The appointment was announced by Ronald Tackett, manager of the district census office in Ashland.

Legislative Report

By Rep. Adrian Arnold

The 1980 Kentucky General Assembly is history. It will take months, and possibly years, to accurately assess its action. Of course, no one completely agrees with every bill that was or was not passed. Overall, however, I feel it was a good session. Many of the enacted bills have been listed in this newspaper, so I shall not go into detail on all legislation passed.

One of the most controversial measures considered was a bill which was amended to provide a pay increase, effective for the 1984 session, and additional retirement for legislators. I voted against this bill. This is an economically difficult time for most Kentuckians; not a time for an increase in legislators' compensation. In addition, I feel any legislative compensation increase should have been presented as a separate bill, to stand on its own merits.

Each session of the General Assembly has a distinguishing characteristic, and in my opinion, this session was set apart by the variety of citizens who came to the capitol to express opinions on proposed legislation. We met with thousands of Kentuckians seeking an end to abortion, unrepresented incarceration, and to save the red fox.

Kentucky labor unions mustered over 10,000 members concerned with changes in the workers' compensation laws, unemployment benefits and prevailing wage laws. Landowners informed us of a potential problem as a new form of surface mining, in search of oil shale, is commencing in the state. We noted the concern and lack of regulation on this new form of mining. We called a moratorium on large-scale efforts until some regulations are made by the Department for Natural Resources and Environmental Protection.

Kentucky veterans came to speak for our Vietnam Era soldiers who have served their country, but received no bonus, in the Commonwealth's tradition. Homebuilders came to us seeking changes in money available for new home starts, in an effort to ease the economic depression that exists in their industry, and teachers came seeking professional negotiations.

As a member of the General Assembly, the peoples' branch of government, I assure you, these efforts by Kentuckians from all walks of life are the life-blood of the legislative process. We are encouraged, informed and aided by citizen interest and involvement with State government.

There is an emerging independence in the peoples' branch of government, begun by you, the voters, when you adopted the legislative amendment in November, 1979. You issued us a vote of confidence and indicated you are ready for General Assembly in Kentucky to have a separate and equal power among the three branches of government.

In 1980, with help from the Governor, we took steps toward legislative independence. We selected our own leadership, free from the Governor's influence, and arranged our calendar under provisions of the new amendment. We scheduled the final two days in April to review actions of the Governor on legislative passed.

The power to over-ride a Governor's veto has always been available to us, but calendar and biennial sessions have made it unworkable. Legislative decisions prevailing, when the General Assembly deems it necessary, is essential in the equality of power among the branches.

This emerging independence is supported by the references made to citizens in Frankfort to see legislators. Emphasis on demonstration by citizens groups is the true harbinger of independence. In the past a request for help with legislation was directed to the Governor's office, rather than the legislators themselves.

With reference to education, we abolished early entrance testing and changed the birthday cut-off from September 1 to October 1 for entrance into kindergarten and first grade. Children currently enrolled in nursery school and kindergarten will be accepted next fall if they fall between the dates of October 1 and December 31. Boards of Education are to adopt policies for the daily participation of students in the Pledge of Allegiance to the Flag of the United States.

Medical residents trained in Kentucky's schools in family practice are now required to serve one-third of his or her internship in an underserved area in the State.

We studied public employee retirement programs and changes in the Kentucky Teachers Retirement System. Retired teachers may do part-time substitute teaching for up to 100 days in any one school year without reduction in retirement annuities.

We established a voluntary senior citizens discount program among Kentucky retailers. Auto insurers will be prohibited from cancelling or refusing to renew a policy because of the age of the insured. Insurance companies are to provide a reason with any notice of cancellation or failure to renew a policy.

THE CARING CORNER

James 5:16 "Therefore confess your sins to one another, and pray for one another, that you may be healed."

I had just finished helping an older person move some heavy furniture around so she could clean behind them. After we had rested for a while and drank a glass of ice tea, she offered to give me some money for my help. I smiled at her generosity, but politely refused saying, "I hope that when I get to be your age there will be some younger person to help me when I need it." Well, she again thanked me and as I opened the front door to leave she said, "Come back again soon, and I'll be praying for you." Little did she know but she had just given me more than she could ever imagine. More than money. More than any "thank you". Knowing that someone is praying for me gives me a burst of inner joy, a boost in my work, and a feeling of gratitude toward God.

Prayed for anyone lately?

Join us this Sunday as we spend time in prayer.

NOTICE TO PUBLIC

Kentucky Utilities Company has filed with the Energy Regulatory Commission of Kentucky a notice and application to increase its electric rates and charges. These rates would be uncollectible pending hearing, under rates to be charged that differ from those proposed rates. Such action may result in an increase in rates for consumers other than those included in this notice. A public hearing concerning this matter will be held at the offices of the Energy Regulatory Commission at 730 Schenkel Lane P.O. Box 615 Frankfort, Kentucky, May 7, 1980 at 10:00 a.m. (EDST) at which time and place all persons interested in said matter may appear and present their views.

Any corporation, association, or person desiring to intervene in this proceeding shall file a petition to intervene with the Commission setting forth the grounds for the proposed intervention as provided by 807 KAR 5:001 Section 3(8). Such petition shall be filed no later than May 7, 1980.

A copy of the application is available for public inspection at the offices of the company at 120 North Hanover Street, Carlisle, Kentucky, or at its principal office at 10 Kentucky Boulevard, Paris, Kentucky.

Tips from the Old Pro

By Hal Washington, PGA

Putting reflects more individualism than any other golfing skill. The golfer's mental and physical makeup greatly influence the manner in which duplication of the fundamentals are applied. Thus we see as many putting styles as there are styles of putters. Yet all fine golfers have certain elements of form without which accuracy and consistency would be lost.

It is the firm opinion of most teaching professionals that all persons can at least be adequate in their putting skills if they observe these characteristics which are common to all successful putting styles:

1. Stance places the eyes over the ball and they remain focused on the ball throughout the stroke.
2. Lower body remains stationary throughout the action of the stroke.
3. Make the stroke firm.
4. Keep the putter blade as low as possible on the backstroke.

These four characteristics can be summed together to impart this one thought to you — use only those muscles necessary for you to put the ball in motion.

With this thought foremost you can readily see that all unnecessary bodily movement is precluded and your full concentration is directed to the stroke itself, allowing you to make firm contact with the blade to the ball and the stroke remains uninterrupted and smooth throughout its action.
