Judges attend Judicial College

Judges Wayne W. Fitzgerald and G.A. Famularo, district judges of the 18th Judicial District (Harrison, Nicholas, Pendleton and Robertson Counties), attended the third annual District Judges' Judicial College held at Lake Barkley State Park, Sept. 21-26.

Eighty-five of the state's 114 district judges attended the 1980 Judicial College, which was conducted by the Administrative Office of the Courts, Division of Education with assistance from the District Judges' Education Committee.

Read-A-Thon started at N.C.E.S.

Ms. Wilma Donathan, librarian at the Nicholas County Elementary School has announced that a Read-A-Thon began Oct. 6 and continues through Oct. 31 to raise funds for the National Multiple Sclerosis Society. Students in grades 4 through 8 are eligible to participate.

Participants in the MS Read-A-Thon are designated "Mystery Sleuths", since they are in fact, helping to solve the mystery of multiple sclerosis. Mystery sleuths commit themselves to read as many books of their choice as they can during the reading period of the program. They are encouraged to enlist sponsors among family, friends, neighbors, and other members of their community, who agree to pledge a specified amount of money for each book the child reads.

Multiple sclerosis, a crippling neurological disorder that most often strikes tragically at young adults between the ages of 20 and 40, their most productive years, is a major health problem.

It has been estimated that MS costs the nation $2 billion each year. What it costs the hundreds of thousands of American patients in distress and disrupted lives is inestimable.

The MS Read-A-Thon deserves the attention and support of every concerned citizen. Therefore, please support the "Mystery Sleuths" in their efforts to raise funds for the National Multiple Sclerosis Society.

Tobacco production is up

Tobacco production this year is up one-sixth from 1979 with increased acreage and some recovery in yields. Dry, hot weather has reduced leaf quality, however, prices are higher for most grades. Thus, flue-cured tobacco auctions are averaging slightly above last season. Cash receipts from the 1980 crop will rise substantially, because of the larger quantity, but may still fall short of the record 1978 income.

Despite smaller beginning stocks, the larger crop is bringing the supply for the 1980/81 marketing year up to the year-ago level; about 5.1 billion pounds (2.30 million metric tons), are expected. Among different kinds and grades, conditions vary from oversupply to undersupply.

The Sept. 1 estimate of U.S. tobacco output was 1.79 billion pounds (811,000 metric tons), up 17 percent from 1979 because of acreage 13 percent larger and yields four percent higher.

A wall or fence six feet or higher can help block cold winds from your house and cut heating costs.
