Square dance lessons to start in Paris

Square dancing has become an increasingly popular activity. The medical profession has lauded it as a healthy pastime for young and old alike.

Dr. Dennis Spackman of Auckland, New Zealand described square dancing as being admirably suitable to delaying, arresting and in some cases reversing the natural progression of the body's stiffening with coming of age, without proving too exhausting for persons concerned.

Square and round dancing is beneficial to the heart and lungs and, providing the square dancer doesn't run home and eat a hearty meal after each class, several pounds of excess weight can be painlessly shed with a month's dancing.

Dr. Spackman writes that another of the greatest benefits for older people in square dancing is the "element of challenge." Square dancing is an ideal recreation for people because they have the opportunity of "not only sharing the fellowship with other people but enjoying each other" while learning a new skill.

Residents in this area will have the opportunity to learn this new skill beginning Sept. 11 when the Paris Promenaders Square Dance Club of Paris begin their lessons for beginners at American Legion Park.

The classes will attempt to give people interested the knowledge of the basics of Western Square Dance style.

Dance lessons will be given Thursday evenings 7:30-10:00 p.m. and will run for 25 weeks. The first two lessons will be free with no obligation for persons attending to continue the course.

The Promenaders cordially invite everyone interested in square dancing to come and give it a try. Any age is welcome. Also, you may bring your children.

The classes will be taught by Cullen Smith, a well-known caller from Winchester..

Emergency feed aid increased

Livestock producers may now receive three cents per pound of hay or other feed grain equivalent in cost share payments to help maintain their livestock operations through the current drought period, Howard W. Hjort, Director of Economics, Policy Analysis and Budget of the U.S. Department of Agriculture, announced August 11.

Such assistance had been two cents a pound.

By law, cost-share payments cannot exceed 50 percent of the cost of the feed. This adjustment reflects this year's stronger prices for hay and other feeds.

The Emergency Livestock Feed Program provides payments to eligible livestock owners to cover a portion of the cost of feed purchased to replace feed that normally would be produced on the farm had no natural disaster taken place.

Producers may apply for the assistance at the local ASCS office located at 246 East Main Street, Carlisle.

Morehead State offers speakers

MOREHEAD, Ky. — Does your organization need a guest speaker?

If so, Morehead State University may be able to help. The MSU Speakers Bureau offers the services of more than 100 speakers and performers.

A program directory listing more than 200 topics is available to civic clubs, schools, youth groups, churches and other non-profit organizations.

Individual copies of the directory are available by mail from the Director of Public Affairs, Morehead State University, 317 Allie Young Hall, Morehead, Ky. 40351, or by calling 1-800-262-7474 (Kentucky only).

REQUEST FOR HIGHWAY DESIGN APPROVAL

Pursuant to the authority issued under the Federal Aid Highway Act and FHPM 7-7-3, effective November 29, 1974 a request dated August 25, 1980, has been made by the Division of Design, Bureau of Highways, Kentucky Department of Transportation to the Commissioner of Highways for design approval of:

Nicholas County, FSP 091-0057-000-001-001-D, BRZ 903-012, Paris-East Union Road (KY 57). This project is located on KY 57 over Hinkston Creek at the Nicholas-Bourbon County line.

Plans for this project as shown on the map accompanying this notice provide for a bridge over Hinkston Creek and approaches thereto. Access to the project will be by departmental permit.

This project is defined under Title 40 U.S.C. Part 1508.4, Council on Environmental Quality National Environmental Policy Act — Regulations, as a Categorical Exclusion, and as such does not require the preparation of a formal environmental impact statement. Maps, plans and other information in support of this request are available for public viewing at the Bureau of Highways District Office, Flemingsburg, Kentucky.

This project being the same for which an opportunity to request a design public hearing was published in this newspaper on July 31 and August 7, 1980.

J.A. BROWN, DISTRICT ENGINEER, BUREAU OF HIGHWAYS, DEPARTMENT OF TRANSPORTATION

WHO WAS THAT LADY?

She was born soon after the birth of the nation, in 1778, and her theatrical talents made her a legend in her own time. An eccentric who counted among her many "firsts" the fact that she was the first American ballerina, she was also the first woman choreographer in this country. She appeared as the prima ballerina in the first ballet performed in the United States and she was a popular pantomimist of her day. Who was that lady? — Suzanne Vaillande Douvillier

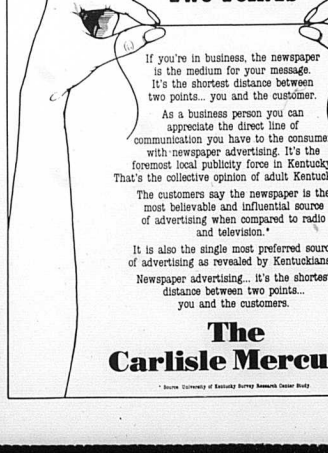
THE SHORTEST DISTANCE BETWEEN TWO POINTS



If you're in business, the newspaper is the medium for your message. It's the shortest distance between two points... you and the customer.

As a business person you can appreciate the direct line of communication you have to the consumer with newspaper advertising. It's the foremost local publicity force in Kentucky. That's the collective opinion of adult Kentuckians.

The customers say the newspaper is the most believable and influential source of advertising when compared to radio and television.*

It is also the single most preferred source of advertising as revealed by Kentuckians.*

Newspaper advertising... it's the shortest distance between two points... you and the customers.

The Carlisle Mercury
