

DEATHS

ALMEDA REHEZINS BISHOP
Almeda Bishel Bishoff, 81, died Sunday, March 22, 1981 at Mercy Hospital in San Diego, Calif. She was a native of Bath County and was the daughter of the late William T. and Beulah Gross Bishel, and a former resident of Nicholas County. She had resided in California for the past 23 years.
She is survived by one son, W.C. Burgess Jr., Lebanon, Ohio; two daughters, Mrs. Norma Jean Giranson and Mrs. Karen Cole, both of San Diego; five sisters, Mrs. Beulah Jackson, Carlisle, Mrs. Virginia Deane and Mrs. Mary D. Short, Flemingsburg, Mrs. Ruby Jewel Hunter, Lancaster, Ohio, and Mrs. Dorothy J. Groomsman, Plymouth, Mich.; 13 grandchildren and four great grandchildren.
She was preceded in death by two brothers, Clarence, in 1922, and William T. Bishel in 1973.
Services were held Friday, March 27 at DeWitt Funeral Home in Flemingsburg by the Rev. Norman Weaver. Burial in Longview Cemetery, Bethel, Ky.

HELENA F. MULLIGAN
Helena F. Mulligan, 71, 266 North Locust Street, Cynthiana, died Saturday, March 21, 1981 at the Harrison Memorial Hospital.
She was a member of the Elizabeth Christian Church.
She is survived by three sons, Randall and Hugh Cole, Harrison County, and David Cole, Boone County; seven daughters, Iona Callahan and Betty Slade, Cynthiana, Marjorie Gaunce, Harrison County, Janet Hawkins, Bourbon County, Linda Carson, Paducah, Patrick Mattingly, Doris Morris, Nicholas County; two brothers, Thomas Mulligan, Grant county, Estel Mulligan, Scott County; one sister, Kate McNeese, Texas; 50 grandchildren and 17 great-grandchildren.
Funeral services were held March 24 at the Colonial Funeral Home by the Rev. Roy Chamberlin. Interment at the Robinson Cemetery.

MRS. G.C. GAUNCE
Mrs. Annabelle Gaunce, 78, widow of the Rev. G.C. Gaunce, died Tuesday, March 24, 1981 in Mt. Dora, Florida. She was a member of Saltwell Methodist Church and a native of Nicholas County.
Survivors are one son, Sam Shaw, Mt. Dora, Fla.; one sister, Mrs. Malinda Alexander, Carlisle; one step-son, Mac Gaunce, New Castle, Ky.; two step-daughters, Mrs. Vera Green, Dayton, Ohio, and Mrs. Tempa Endicott, Midway; four granddaughters; three great granddaughters; several nieces and nephews.
She was preceded in death by a son, Lloyd A. Shaw.
Services were held Saturday, March 28 at the Matthers-Gaunce Funeral Chapel by the Rev. Howard Hutchins and the Rev. Roy Hunt, with burial in the Carlisle Cemetery.

MRS. ORIE COYLE
Mrs. Edith L. Coyle, 72, Liberty Road, died Sunday, March 29, 1981. She was born in Nicholas County, the daughter of the late Watt and Myrtilla Stanfield Cox.
She is survived by her husband, Odis Coyle; a daughter, Mrs. Margaret Sizemore, Fayette County; three sons, Vernon Coyle, Lexington, G. or S. Coyle, Ocala, Fla., Shelby Coyle, Springfield, Ill.; 11 grandchildren; one great grandchild; two brothers, Robert Jackson, Columbia, S.C., William Jackson, Danville; a sister, Mrs. Richard Rice, Winchester.
Services were held March 31 at Kerr Brothers Funeral Home with the Rev. Robert James officiating. Burial in the Elizabeth Cemetery.
Grandsons served as pallbearers.

MRS. WILBURN CLARK
Mrs. Georgia Ruth Clark, 75, wife of Wilburn C. Clark, died Wednesday, March 25, 1981 at the Nicholas County Hospital.
She was a native of Nicholas County and was a member of the Carlisle Christian Church.
Survivors in addition to her husband are one son, Leonard Lester Clark, Cincinnati, Ohio; two brothers, Thomas Fitzpatrick, San Antonio, Texas, and Leonard Patton, Carlisle; one grandson, Michael Clark, Cincinnati.
Funeral services were held Friday, March 27 at the Matthers-Gaunce Chapel by the Rev. Eugene White and the Rev. Merrill Mitchell. Burial in Carlisle Cemetery.
Pallbearers: Douglas Fryman, Stanley Carwell, Glenn Kimbrel, Norman Duncan, John Allison, John Tapp.

MRS. ANNE CLARK
Mrs. Anne Clark, 75, wife of the Rev. G.C. Gaunce, died Tuesday, March 24, 1981 in Mt. Dora, Florida. She was a member of Saltwell Methodist Church and a native of Nicholas County.
Survivors are one son, Sam Shaw, Mt. Dora, Fla.; one sister, Mrs. Malinda Alexander, Carlisle; one step-son, Mac Gaunce, New Castle, Ky.; two step-daughters, Mrs. Vera Green, Dayton, Ohio, and Mrs. Tempa Endicott, Midway; four granddaughters; three great granddaughters; several nieces and nephews.
She was preceded in death by a son, Lloyd A. Shaw.
Services were held Saturday, March 28 at the Matthers-Gaunce Funeral Chapel by the Rev. Howard Hutchins and the Rev. Roy Hunt, with burial in the Carlisle Cemetery.

MRS. ANNE CLARK
Mrs. Anne Clark, 75, wife of the Rev. G.C. Gaunce, died Tuesday, March 24, 1981 in Mt. Dora, Florida. She was a member of Saltwell Methodist Church and a native of Nicholas County.
Survivors are one son, Sam Shaw, Mt. Dora, Fla.; one sister, Mrs. Malinda Alexander, Carlisle; one step-son, Mac Gaunce, New Castle, Ky.; two step-daughters, Mrs. Vera Green, Dayton, Ohio, and Mrs. Tempa Endicott, Midway; four granddaughters; three great granddaughters; several nieces and nephews.
She was preceded in death by a son, Lloyd A. Shaw.
Services were held Saturday, March 28 at the Matthers-Gaunce Funeral Chapel by the Rev. Howard Hutchins and the Rev. Roy Hunt, with burial in the Carlisle Cemetery.

MSU academically sound

"Academically sound" is how Morehead State University's academic vice president describes the outcome of recent national accreditation evaluations of MSU.
The NCATE study focused on teacher training, including the preparation of faculty in relation to courses taught, faculty with terminal degrees, faculty teaching in their field of expertise, consistency in course objectives, input from faculty, students and the community as well as whether the curriculum information is relevant to different cultures.
"Most of our shortcomings as defined by the NCATE study team had already been discovered during our own study and were in the process of being improved by the time the visitation team arrived on campus," said Dr. Leonard Burkett, professor of education and co-chairman of MSU's NCATE team. "All of our programs at MSU were accredited or re-accredited and we are very pleased with the results of the study."
The entire University was under self-study in the SACS accreditation and Dr. Steve Taylor, co-chairman of MSU's SACS study team, stated that the University is in healthy condition, according to the SACS standards.
The SACS study team outlined several strengths at the University, noting the physical plant, library facilities, physical resources and the number of faculty holding terminal degrees.
"The set of standards outlined by our colleagues and peers in higher education for universities and colleges is yardstick for institutions to measure themselves by," said Dr. Thomas.
"The study never really ends," added Dr. Taylor, referring to the continuous study, change and revision of the University's curriculum and operation.

Title law needed

A change in the state's vehicle registration law has resulted in the discovery of odometer rollbacks, counterfeit titles and stolen cars.
Since July 15, 1980, county clerks have been required to send registration records on new cars and out-of-state cars to the Bureau of Vehicle Registration in the state Department of Transportation each week.
Prior to the change, county clerks kept all registration records in files for seven years before sending them to Frankfort.
James Runke, commissioner of vehicle registration, said the change has made an "unbelievable difference."
"The new law has brought the documents out of the files to Frankfort where we have people trained to inspect the documents and determine if they are valid," Runke said.
A title law, however, is necessary to give the consumer the protection they deserve, he added. Kentucky is presently the only state in the nation that does not have a vehicle title law.
A title law is simply a procedure for determining ownership of vehicles and preventing the sale of stolen cars.
Runke said the bureau is working with the state police in drawing up a title law to submit to the next meeting of the legislature.
Currently 13 counties are on a computerized registration system.

Proposal could increase rural electric bills 10%

Electric bills for 550,000 rural families in Kentucky would increase over 10 percent by the end of 1982 if one of the Reagan Administration's proposals becomes reality.
The proposal, according to Louis B. Strong, president of the Kentucky Association of Electric Cooperatives, is the one relating to the Federal Financing Bank (FFB).
The Reagan Administration has targeted the Rural Electrification Administration, known as the REA, to be prohibited from using the FFB for co-op financing.
Strong describes the problem as serious. "The most distressing thing about it is that what has been proposed will not correct what needs to be corrected. And on top of that, it's going to cost rural electric members a lot of money."
How much money is Strong talking about? "We can predict very accurately assuming our budgeted capital needs for the next 10 years are realized. During that time, electric bills would have to be increased by \$25 million."
The reason for the \$25 million price tag is that without the FFB, rural electric cooperatives would have to pay at least 1 percent more for their loans.
"And when you borrow billions of dollars, that 1 percent is really significant," says Strong. "The FFB is simply the most efficient way we have of borrowing large amounts of money. Any alternative is going to cost quite a bit more."
"The Federal Financing Bank was created in 1973 to coordinate the various government agency and government-backed financing activities. The FFB actually obtains its funds from the U.S. Treasury and pays the full cost of the Treasury loans on its borrowings. The bank then adds a charge for its services — above the Treasury costs; rural electric cooperatives repay the full loan — plus a service fee. And co-ops have never failed to repay every dollar they owe."
"President Reagan wants to get government off our backs," says Strong, "and rural people want the same thing. But eliminating our use of the FFB wouldn't do it. Rural electric co-ops don't add one dollar of additional cost to the bank's operation. In fact, RECCO throughout the nation paid the bank \$6 million last year for the services it provided. And the co-ops have always repaid the loans. We've never defaulted on the first dollar."
"The Reagan spokesman acknowledges that cutting off the REA from the Federal Financing Bank won't help balance the budget," says Strong, "but they do advocate that the obligation

adds to the federal debt since the REA, a federal agency, borrows the money for the rural electric co-ops. But these loans are not subsidies. We pay the same rate of interest that it costs the federal government to borrow money."
How does Strong figure that electric bills would go up over 10 percent by the end of next year? "Simple arithmetic," he says.
"First, the additional 1 percent interest cost amounts to \$25 million. Second, divide the \$25 million by 10 years, and we get an average cost per year of \$2.5 million. Divide that by the 550,000 households affected, and you get about \$4.54 per family for each year. Currently, the typical RECCO customer pays about \$900 a year for electricity. The additional \$4.54 represents an increase of over 11 percent. And remember that \$4.54 additional dollars of cost will have to be paid for each of the next five years."
Strong adds that only the Kentucky members on rural electric lines which may not have to pay the added costs would be the 90,000 families served by West Kentucky, Hickman-Pulaski, Perryville, Warren and Tri-County co-ops. "These co-ops are supplied and dry, favorable for electric and minimizing the need for winter feed."
Weather, Week Ending Sunday, March 29, 1981: Rain fell over Kentucky at the beginning and end of the week and for the periods amounts still remained below normal, averaging one-third inch East to around one to locally two inches West. Temperatures during the week averaged three to six degrees above normal with mean readings in the mid to upper 50's. A warming trend set in the latter part of the week and brought the state its warmest weather thus far this year.

Tobacco Beds: Tobacco beds are reported 75 percent seeded compared with 20 percent last year and an average of about 50 percent. Approximately five percent of the tobacco beds have plants up. Weeding of beds has been necessary. Several farmers commented they would need additional plants to set the increased barley acreage.
Small Grains and Legumes: Winter grains are reported in much better condition but very much in need of additional rainfall. Winter loss of wheat was reported at five percent, but dry weather and damage from winter cereal carryover have been more of a problem than cold weather. Late winter and early spring weather has been ideal for applying fertilizer to small grains, and much of the wheat acreage has had fertilizer applied. Dry weather has also caused stress to new stands of alfalfa and red clover.
Pasture and Hay: Pasture condition ranges from poor to good, averaging fair for the state. Forage production of the livestock are still on winter feed but cattle and calves are getting 50 percent of their roughage requirements from pastures. About 18 percent of the total winter hay supply is still on hand, but some localities are very short of hay. Overall, the 1980-81 winter was mild and dry, favorable for electric and minimizing the need for winter feed.

Weather, Week Ending Sunday, March 29, 1981: Rain fell over Kentucky at the beginning and end of the week and for the periods amounts still remained below normal, averaging one-third inch East to around one to locally two inches West.
