Sales credit and cash cre-it are basically the two ypes of credit most readavailable to the major of consumers.

Sales credit include Sales credit includes charge accounts, credit cards, and other means of financing created at the time of a specific transac-tion . therefore, the term, sales credit.

term, sales creati.

Cash credit is unually in the form of a direct loan, such as those made at the bank. Although the loans are made on a cash basis, they can often be repaid in their a lump sum at a specific "installments" over a period of time. Many find that with the purchase of major appliances, or other big ticket items to major appliances, or other big ticket items be "cash credit" is set at worth the time to establish a direct loan.
