Kay's Kitchen

By Kay Fisher

Are you having second thoughts about not having made a fruitcake this year for the holidays? If so, the next or even later, that will serve just as well. These cakes do not need to ripen at least a month, as do fruitcakes and pecan cakes. And you will find the ingredients much less expensive.

CHRISTMAS CAKE

1½ cups seedless raisins
1½ cups water
½ cup butter or shortening
½ cup superfine sugar
1 egg
1 teaspoon vanilla
2 tablespoons whiskey
1¾ cups all-purpose flour
1 teaspoon soda
¾ teaspoon ground cloves
¾ teaspoon ground nutmeg
Pinch of allspice
1 teaspoon salt
½ cup chopped pecans
Filling

Cover raisins with 1½ cups water; simmer over medium heat about 20 minutes. Drain, reserving ½ cup liquid; cool.

Cream butter and sugar until light and fluffy; beat in egg, and stir in vanilla and whiskey. Combine flour, soda, spices and salt; add to creamed mixture alternately with reserved raisin liquid, beating well after each addition. Stir in raisins and pecans.

Spoon batter into two greased and floured round cake pans. Bake at 350 degrees for 25 to 30 minutes or until done. Cool completely. Spread Filling between layers and on top of cake. Chill thoroughly. Cake must be stored in refrigerator.

FILLING:

½ cup superfine sugar
¼ cup butter, softened
1 egg
1 tablespoon whiskey

Cream sugar and butter until light and fluffy; add egg and whiskey, beating well. Makes about ½ cup.

When I made this I doubled the Filling recipe. One-half cup didn't seem quite enough to me. It did make a more luscious cake.

CREAMY FRUIT AND NUT CHEESECAKE

This you can make ahead of time and freeze.

¼ cup butter
1 cup graham cracker crumbs
¼ cup sugar
2 8-ounce packages cream cheese, softened
1 14-ounce can sweetened condensed milk
1 envelope unflavored gelatin
¼ cup bottled lemon juice
1½ cups ready to use mincemeat
½ cup chopped nuts
1 tablespoon grated lemon rind
1 cup whipping cream

In saucepan, melt butter; stir in crumbs and sugar. Pat firmly on bottom of a nine-inch springform or nine-inch square pan; chill. In large mixer bowl beat cheese until fluffy; add sweetened condensed milk, beating until smooth. In small saucepan soften gelatin in lemon juice; heat and stir until dissolved. Add to cheese mixture with mincemeat, nuts and lemon rind; mix well. Thoroughly fold in whipped cream; turn into prepared pan. Chill three hours or until set. Garnish as desired with additional nuts or candied fruit.

TO MAKE AHEAD: Line sides of springform pan with wax paper; proceed as directed but do not garnish. Wrap entire pan tightly; freeze. Thaw in refrigerator; remove sides of pan. Garnish as desired.

*****

Now to answer the request about chestnuts.

When selecting chestnuts, be sure to choose plump ones that are free from blemishes or cracks. To prepare them for cooking, wash well, and make a long slit through the shell on both sides of the nut. After cooking, the outer shell should slip off easily.

Store in a cool dry place. Shelled nuts should be placed in covered container.

TO ROAST: Wash chestnuts; cut long slit through shell on each side of nut with sharp knife. Place nuts in single layer in a baking pan; bake at 350 degrees for one hour. Cool; remove shell and inner skin from nuts.

BOILED CHESTNUTS: Wash chestnuts; cut slit on both sides of nut. Place chestnuts in a large saucepan, cover with water. Bring to a boil; reduce heat and simmer 30 minutes. Drain and cool; remove shell and inner skin.

BANK NOTES
By Emerson Baker
Exec. Vice Pres.
First National Bank

American agriculture is one of the largest industries in this country. Financing this industry has been one of the integral parts of banking. Why is this a fact? You can predict a lot of things but the growing of crops is one of the most unpredictable things in this world. Therefore it takes all types of financing to keep American agriculture alive. The types in general being short term, long term and per crop financing. To grow a crop farmers have to have more short term financing than any other industry and this is basically the banks' portion of putting food on the American table. Banks deal with the farmer on the same basis as any other customer in loaning money, but over the years the American farmer has proved to be without a doubt one of the best short term money borrowers in this country.
