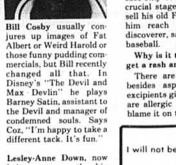
GOSSIPING WITH JEL JACKSON

HOLLYWOOD — There is a lot of talk around about **Mae West** not mentioning **Paul Novak**, her bodyguard and companion of 25 years, in her will. Well, you can just bet that she must have made a settlement on him before she died. She was devoted to him and to her and she certainly would not overlook him. She was not that kind of person. ... The name glad Tiny Tim's trying to shed 50 pounds for his showbiz comeback. He was starting to look like a blimp with hair ...



Bill Cosby usually confines up images of Fat Albert or Weird Harold or those funny pudding commercials, but Bill recently changed all that. In Disney's "The Devil and Max Devlin" he plays Barney Satin, assistant to the Devil and manager of condemned souls. Says Coz, "I'm happy to take a different tack. It's fun."

Lesley-Anne Down, now being seen on the big screen in "Sphinx," made her stage debut recently in London playing the cockney flower girl in "Pygmalion" at the Young Vic Theater. Her reviews were raves ...

Maggie Smith also is gracing the London boards in "Virginia" at the Theater Royal in Haymarket. Always interesting to note most thespians will do a play for one-sixteenth the money they get for a film — and love it ... I'm told **Lana Turner** was devastated over being asked to play the mother-in-law in TV's updated version of Madame X. Lana played Madame in the big screen version still making the rounds on the late show. That was filmed back in the early sixties with the late Constance Bennett as the mother-in-law. Now sixtyish, Lana should realize that time does fly and going gracefully into character roles makes for a long career for a pro former ... Kim Novak is wanted for "Pilgrims: An American Odyssey," to film come summer in Berkeley, which is only a short drive from her Carmel, Calif., home. After all, she did come out of a 10-year retirement and tripped all the way to Blighty for "The Mirror Crack'd." However, Kim's so happy at home with her veterinarian husband and house full of animals, there's no firm commitment as yet.

MEDICINE CHEST

by H. BOSWELL YORK, R. PH.

Why do some cold medicines have cough suppressants (antitussives)? I thought it was good to cough when you had a cold. — M.C.

Cough associated with the common cold may be either productive or nonproductive. A productive cough, which removes accumulated mucus from the lower respiratory tract, is generally regarded as necessary. You would not take a cough suppressant cold medicine for this type of cough. The nonproductive cough performs no useful function. That is, there is no chest congestion. This self-perpetuating and potentially harmful symptom often requires treatment with an antitussive-cough suppressant.

How much did it cost to discover insulin? — J.D.

The entire process — from conception of the idea to delivery of the first insulin for injection into humans — cost only $15,000. That was the money cost, but at a crucial stage Banting, one of the discoverers, had to sell his old Ford car to purchase the dogs that helped him reach his final goal. Charles Best, the co-discoverer, sacrificed a summer's earnings from playing baseball.

Why is it that one brand of aspirin will cause me to get a rash and another brand will not? — Mrs. M.

There are other substances in an aspirin tablet besides aspirin. They are called excipients. The excipients give the tablet form, or color or taste. If you are allergic to one form of aspirin and not another, blame it on the excipients.

NEXT WEEK'S HOROSCOPE

By SALOME

If your birthdate occurs this week . . .

The Moon's last quarter meeting you can expect the best When your charm and wit are finally put to the test.

Aries Mar. 21 - Apr. 19 Pluto

The Aries native can sniff out some changes a-coming. But be sure you're ready for that sweet smell of success when it finally arrives. Ignore advice of pessimists who don't understand rambunctious Ewes and Rams.

Taurus Apr. 20 - May 20 Venus

The Taurean Bull will grow impatient with a jolly-gagging Libran. Start making call-eyes at a big cat who is purrrfectly agreeable to starting a fine relationship. Remember, yellow excites that Leo or Leona.

Gemini May 21 - June 20 Mercury

Geminian Twins feel like throwing caution to the winds in romantic and financial situations. But get your feet on the ground fast if your romance looks too one-sided. An Aries has some sensible and sensual suggestions.

Cancer June 21 - July 22 Moon

Cancer's Moon Children can be a bit too anxious. Don't let the waning moon lelve you mooning around. A sexy Scorpio helps put zing back into your lovelife. There's property for sale if you're looking. But be wary.

Leo July 23 - Aug. 22 Sun

A change of scene is like catnip to a winter-weary Leo or Leona. If you can't get away to a winter resort, do over your den in bright, warm colors and start shopping for those warm-weather fashions you love.

Virgo Aug. 23 - Sept. 22 Mercury

Harping on an old love's new faults will strike a sour note with a new romance. A Cancerian Moon Child in well worth disrupting your precise Virgan routine. Sort out all bids for your property before you buy.

Libra Sept. 23 - Oct. 22 Venus

A smooth-talking Capricorn can cause future wrinkles in your future unless you two iron out de-pressing problems now. Money matters look good for wise Librans who balance their budgets before taking new risks.

Scorpio Oct. 23 - Nov. 21 Mars

Sexy though you may be, the smart Scorpio doesn't take romance for granted. The stars advise you to think before you decide to single someone with harsh remarks. Rash words today can upset you tomorrow.

Sagittarius Nov. 22 - Dec. 21 Jupiter

You may have had too many bumpy rides on the road of life this week but if you hang on, you'll find it was well worth the effort. At least you found out who some of your friends were. The ones who stood by you.

Capricorn Dec. 22 - Jan. 19 Saturn

The Capricornean Goat could get cold feet this week — and it won't have a thing to do with the weather. Avoid being kidded out of a promising situation by remembering that you rarely make a mistake in judgment.

Aquarius Jan. 20 - Feb. 18 Uranus

Aquarians may feel left out of things this week. But that's only to give you breathing space for what's coming up. Take time to read that book you've been meaning to and take time for health and beauty routines.

Pisces Feb. 19 - Mar. 20 Neptune

The Piscean Fish feels he or she can make any wish come true this week. Actually, the wishers who won't wash out are those who make their wishes come true. Romance beckons courtesy of a courteous Sagittarius.

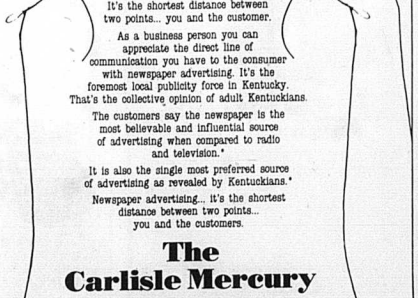
THE SHORTEST DISTANCE BETWEEN TWO POINTS



If you're in business, the newspaper is the medium for your message. It's the shortest distance between two points... you and the customer.

As a business person you can appreciate the direct line of communication you have to the consumer with newspaper advertising. It's the foremost local publicity force in Kentucky. That's the collective opinion of adult Kentuckians.

The customers say the newspaper is the most believable and influential source of advertising when compared to radio and television.*

It is also the single most preferred source of advertising as revealed by Kentuckians.*
