Can nature pollute? Not as much as man!

By Jay Ansenhark
National Geographic News Service
Warning: Nature may be hazardous to your health. Sometimes on its own it can even evade federal pollution standards.

still don't know how much.
Alone, they generally agree, nature does not appear to have done so much damage so far, except in some isolated instances. But when the chemicals it naturally releases combine with what man puts into the air, for example, the results under certain circumstances can be harmful enough to affect living things.

Thank you
I wish to thank all of the people who supported me in the recent election.

Burley 'bonus' checks in the mail this week

West. Along the coast there is natural seepage of oil from the ocean floor. In soil, there can be lead, cadmium, iron and metals such as deposit, cadmium, iron and uranium.

by Bennett Ranch
Tobacco growers of this county are sharing this week in a "bonus" distribution of nearly \$7 million, representing gains on pooled burley from the 1975 and 1976 crops.

with unparalleled success. The record shows 1,731,300,000 pounds received, \$1,177,166,000 borrowed from Commodity Credit Corporation and interest of \$18,100,000 paid to that government agency.

Troopers no longer give exams
In a move aimed at freeing state troopers for law enforcement activities, civilian employees are now being trained to administer driver's license examinations in Kentucky.

trooper for a few weeks.
The 24 new examiners will begin work in a 35-county area. State Police Commissioner Marion D. Campbell said the remaining recruitments are now in the program will be trained and in the field by late September.
